Staff Present: Suzanne Simone

Applicant and Applicant's Representatives: Joan Molloy, Tony Tranquillo, Roy Shook and Gerald Verna

Attendees viewed the upland and wetland areas. A Commission member questioned whether the wetland area at the western most border was checked for vernal pool characteristics. The applicant stated they would ask Penny Sharp regarding her evaluation of the property.

Commission members observed the areas of the to-be-demolished house and driveway, as well as the above ground utilities that will need to be relocated. Commission members noticed that the site plan does not show the extent of erosion controls to be used in these areas.

Staff asked the applicant whether fill would be brought on site to fill the area of the existing house. The applicant stated that further details would be provided.

The site walk of this property concluded at 6:45 p.m.
