

March 20, 2020 COVID-19 Update

Town buildings remain closed to the public, but employees are still providing limited services by appointment, and residents are encouraged to do business with the Town electronically wherever possible. The Governor's latest Executive Order will be closing non-essential businesses, which may impact the services provided by the Town. More information will be posted after the EO has been issued.

Town Parks and school grounds remain open for the present. Residents are **STRONGLY URGED TO MAINTAIN SAFE SOCIAL DISTANCING** when outside, and to limit gatherings to fewer than ten people. Fresh air and exercise are important physically and mentally, and with personal responsibility, we can all continue to enjoy our outdoor facilities.

There is a multitude of misinformation on social and news media. We urge residents to vet your sources. The state website at <https://portal.ct.gov/Coronavirus> and the CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html> provide up to date and reliable information. The Town website, Facebook pages, and Twitter accounts have local relevant information as well.

Stay safe, stay well.
