The proposed budget is remaining mostly static except for the a $7,000 decrease in the salary account and an increase of $4,145 bin the non-salary accounts reflecting the following:

- The $7,000 decrease in the salary account is reflective of the retirement of the Senior Services Administrative Assistant and the in-house hire of her replacement.
- The Youth Services Committee and the Human Services Committees had $500 each appropriated for committee related expenses, I have requested $0 for those committees for 2020-2021, as they no longer exist and instead requested $1500 in funding for the Youth & Human Services Committee, reflecting $500 in additional committee funds.
- We are requesting an increase of $1,000 in the Senior Services account 5408 - Program Services - to reflect a much overdue increase in course instructor fees, who in comparison to other communities are underpaid. The increase was intended to reflect a move from a $35 fee per class to a $45 fee per class.
- An increase in the Human Services account 5503- Auto allowance from $405 to $2250 (an increase of $1845) to account for the move from a quarterly mileage reimbursement to an auto allowance for the Human Services Director.
- An increase of $1125 in the Youth Services account 5501- Membership fees to account for the licensing requirements of the two Youth & Family Counselors.
