

CHESHIRE INLAND WETLANDS AND WATERCOURSES COMMISSION
SITE WALK:

151 WILLOW STREET

TUESDAY OCTOBER 23, 2012
2:00 P.M.

SITE WALK BEGAN AT 2:00 P.M.

Members Present: Charles Dimmick, Earl Kurtz, Shelia Fiordelisi, Will McPhee, Thom Norback and Kerrie Dunn

Staff Present: Suzanne Simone

Applicant: Chad Horning

Attendees viewed the area of the proposed segmented wall. It was discussed that the material proposed does not require installing below the frost line. It was estimated that the wall would be located approximately 8' from the back of the house. The Commission viewed the area of the proposed fence.

Charles Dimmick identified the remnants of juniper shrubs within 15' of the watercourse. The proposed use of 5' tall grasses was discussed. Mr. Horning was asked about using shrubs to shade the watercourse. Mr. Kurtz asked the name of the grass species and inquired about using shrubs instead of grasses.

The area of recent concrete removal was observed. Mr. Horning agreed to secure the remaining soil stockpile with silt fence, especially on the down slope side. The area of proposed lawn expansion was observed. The one tree proposed to be cut down was observed. The vines and recently downed tree were discussed and Mr. Horning expressed an interest in removing the downed tree sections.

The site walk of this property concluded at 2:38 p.m.
