

CHESHIRE INLAND WETLANDS AND WATERCOURSES COMMISSION
SITE WALK:

PECK LANE SUBDIVISION

SATURDAY JUNE 8, 2013

SITE WALK ASSEMBLED AT 505 PECK LANE AND BEGAN AT 8:00 A.M.

Members Present: Charles Dimmick, Kerrie Dunne, Will McPhee, and Thom Norback

Others Present: Ryan McEvoy, applicant's engineer

Commission members studied the plans for the site and decided to focus attention on the area where the septic system for the most southerly lot intruded into the setback area for the wetlands. A representative from Milone and McBroom explained what was proposed for the area, including necessary fill and erosion controls. The actual wetland edge was sharply defined by vegetation, soils, and topography.

The site walk of this property concluded at 8:30 a.m.
