## TOWN OF CHESHIRE

James J. Jaskot, CPA Finance Director/Treasurer 84 South Main Street - Cheshire, CT 06410-6639 203-271-6610 - Fax: 203-271-6664

February 1, 2023

Mr. Sean Kimball, Town Manager Town Council Members Town of Cheshire Cheshire. CT 06410

I am pleased to transmit the Annual Comprehensive Financial Report (ACFR) of the Town of Cheshire, Connecticut (the Town) for the Year ended June 30, 2022.

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to this requirement, we hereby issue the annual comprehensive financial report of the Town of Cheshire for the fiscal year ended June 30, 2022.

This report consists of management's representations concerning the finances of the Town of Cheshire. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the Town has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the Town's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

CliftonLarsonAllen LLP, a firm of certified public accountants, has audited the Town's financial statements for the year ended June 30, 2022. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Town are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town's financial statements for the fiscal year ended June 30, 2022 are presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the Town was part of broader, Federal and State mandated "Single Audits" designed to meet the special needs of Federal and State grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal and State grant awards. These reports are available in the Town's separately issued Single Audit Reports.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the Town**

The Town of Cheshire, incorporated in 1780, is located in the south-central section of the State and has a land area of 33 square miles and a population estimated to be 28,766. Up until about 1950, Cheshire was predominantly a rural farming community that has grown into a well-planned residential, suburban Town. While the Town has experienced significant growth, it maintains its agricultural heritage with over two million square feet of greenhouses and hundreds of acres of open growing fields resulting in the Town having the designation as the bedding plant capital of Connecticut. Cheshire is ideally located in the center of Connecticut with access to all major routes and is a community of choice among families who seek the Town's exceptional public schools, dedication to services and a strong sense of community.

The Town of Cheshire operates under a council-manager form of government. Policy-making and legislative authority are vested in a nine member Town Council. The Council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring both the Town Manager and Town Attorney. The Town Manager is responsible for carrying out the policies and ordinances of the Town Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments. Council members serve two-year terms with four of the Council members elected by district and the remaining five elected at large.

The Town of Cheshire provides a full range of services as described below:

**Police:** The Cheshire Police Department is staffed with sixty-one full-time employees, forty-eight of whom are sworn police officers. The Department is organized into three divisions: Patrol, Support Services, and Administration. The Police Department manages the municipal animal control function consisting of two full-time employees. It also employs seven part-time school crossing guards. The Cheshire Police Department is a full-service agency providing a full range of police services on a twenty-four hour a day basis.

The headquarters building is a 20,000+ square foot facility, hosting all police department functions including a records division and dispatch facility. The Department is equipped with all appropriate telephone, radio and computer systems common to modern police agencies. The Department operates a fleet of twenty-five marked and unmarked vehicles equipped with two-way radios, computers, video cameras, less-lethal munitions, first aid supplies, Automatic External Defibrillators, GPS and traffic safety equipment. The Department also operates a motorcycle and an all-terrain vehicle.

**Fire:** Fire suppression and rescue services are provided by the Cheshire Fire Department. The Department is comprised of approximately 60 volunteer members. A career Fire Chief, appointed by the Town Manager, is responsible for administrative activities and personnel matters in addition to all the services provided by the Department. The Town appropriates funds annually for the operation of the Department that are used for typical operating expenses such as training, insurance, and fleet maintenance. Apparatus and equipment are funded through the Town's capital budget process.

The Department equipment includes seven fire engines, two heavy-duty rescue units, two aerial ladders and several utility vehicles. The Department maintains three fire stations including an 18,000+ square foot headquarter facility and two substations.

Under the direction of the Fire Chief, the Fire Marshal's Office provides an aggressive prevention/public education/inspection program through its four full time and three part-time staff. They also serve as firefighters and respond with apparatus while on duty.

**Parks and Recreation:** The Parks & Recreation Department, located at the Harmon Leonard, Jr. Youth Center, offers a wide range of year-round inclusive recreational activities and special events for all age groups: preschool, school-age, teens, adult and senior citizens. Over 330 acres are devoted to parks and

active recreation and over 1,500 acres for open space and passive recreation. Parks include Roaring Brook, a natural area with a water course that falls eighty feet; Lock 12 Historical Park, a restored 150 year old canal lock and gatekeeper's home on the Farmington Canal, picnic pavilion and public restrooms; Cheshire Park, 75 acres, 25 percent set aside for active recreation with balance undeveloped with the Ruth C. Burke trail system. Cheshire Park includes three ball fields, one with athletic lighting, the Mark Jardim picnic pavilion, 3 tennis courts, 6 pickleball courts including court lighting, basketball court, sand volleyball court, playground equipment and public restrooms; Mixville Recreation Area, two picnic pavilions, playground equipment, basketball court, sand volleyball court, pond for swimming, winter sledding, hiking trails, John G. Martin Foundation Outdoor Education Center and public restrooms; Farmington Canal Linear Trail, a 7 mile paved hiking and biking trail along the Farmington Canal running the length of Cheshire; Bartlem Park, features 6 multi use rectangular fields, 2 hardball fields, 2 softball fields, 50-meter year-round community pool, boundless playground with equipment, skateboard park, community garden, picnic pavilion and public restrooms; Quinnipiac Park, has 7 multi use rectangular fields, concession stand, picnic pavilion, playground equipment, roller rink 80'x180', and public restrooms; McNamara American Legion Recreation Area, features 4 hardball fields, basketball court, playground equipment and public restrooms.

**Library:** The Cheshire Public Library is generally open 62 hours per week providing library materials, services and programs for all ages. The Library houses a collection of over 106,000 print and audiovisual materials along with over 60 databases and electronic collections. Free Wi-Fi and 18 internet accessible computers are available for public use. There are four study rooms that may be reserved by individuals or small groups.

The Library also provides educational and cultural programs including early-literacy classes for preschoolers, teen programs, adult lectures, concerts and art exhibits. The Library also collaborates with the Cheshire Performing and Fine Arts Committee, which provides art and theatre programs to residents.

**Social Services:** The Human Services Department provides programs serving Cheshire youth, senior citizens and the handicapped. Counseling is available for teenagers and their families, as well as positive youth development programs for high school-aged adolescents. Bartlem Park features the "Yellow House" community youth center. The Town Senior Center serves as a gathering place for seniors and offers a variety of activities. A transportation system is provided for seniors and the handicapped.

**Inspection:** The Inspection Department issues all types of building permits and is responsible for the inspection and approval of all construction in Town in accordance with state and local building codes.

**Planning and Zoning:** The Town has a nine-member, elected Planning and Zoning Commission, which is responsible for adopting and administering the zoning and subdivision regulations, and for developing and updating the Comprehensive Plan of Development.

**Economic Development:** The Town has an Economic Development Coordinator who works closely with a seven-member commission, appointed by the Town Council, in promoting the Town and providing information and services to prospective businesses as well as existing, established businesses. See the local economy section later in this document.

**Health:** Cheshire is a member of the multi town (Cheshire, Prospect, and Wolcott) Chesprocott Health District that provides public health and sanitation inspection services to the member municipalities.

**Public Works:** Public Works is staffed with 43 employees and is responsible for the maintenance and improvements of all Town owned infrastructure, including 152 miles of public roads, 115 miles of sidewalks, 120 miles of sanitary sewers, 10 pump stations, bridges, and storm sewers. They are also responsible for the maintenance of 200,000 square feet of Town owned buildings, five parks, 1,500 acres of open space, and trees on Town owned properties. The Department provides engineering services for the Town and practices an aggressive pavement maintenance program that includes asphalt paving, crack sealing and other pavement preservation techniques.

**Sewer System:** The Water Pollution Control Authority oversees management of a sewer system that serves approximately 5,545 commercial, industrial, and residential properties, or 60 percent of the Town's

population. The municipal sanitary sewer system has been extended into the western, southern, southeastern, and northern sections of the community. Sewage is received and treated at the Wastewater Treatment Plant, which has a designed capacity of 4,000,000 gallons per day. The Town has both a phosphorus removal system and a denitrification facility, which provides a substantial reduction in the amount of phosphorus and nitrogen discharged to the Quinnipiac River and eventually Long Island Sound. The current average daily flow of the Wastewater Treatment Plant is 2,400,000 gallons per day. The Town recovers a significant portion of construction costs for sewer main extension through sewer assessments collected over a period of several years. Users of the system pay an annual sewer use charge.

**Waste Disposal:** The Town provides curbside municipal solid waste and recycling collection to approximately 9,500 single family and condominium units. The town contracts this service through a private trash hauler. Town residents may utilize a private transfer station, run by our contracted hauler, to dispose of bulky waste items.

The Town provides for disposal of household hazardous waste through a seasonal (May through October) collection program provided by the Regional Water Authority located at 90 Sargent Drive, New Haven, Connecticut. The Town collects bagged leaves at curbside for six weeks during the fall season and holds electronics and mattress recycling events two times per year.

**Education System:** The Town's school system, which services grades pre-kindergarten through 12, is governed by the local Board of Education. Cheshire has a seven-member Board of Education elected to four-year, staggered terms. The primary function of the Board is to establish policy. Some of the areas for which such policies are set include curriculum, budget requests submission, ensuring education funds are properly expended, implementation of both State and Federal laws, and planning for facilities needed by the system, including construction and renovation. The Town has 8 schools for grades pre-kindergarten through 12. Enrollment in grades pre-kindergarten through 12 as of October 1, 2021 was 4,185.

**Budget:** The annual budget serves as the foundation for the Town's financial planning and control. All agencies of the Town are required to submit requests for appropriation to the Town Manager on or before February 15. The Town Manager uses these requests as the starting point for developing a proposed budget. The Town Manager then presents this proposed budget to the Town Council by March 10. The Council is required to hold a public hearing on the budget by March 24 and adopt a budget by April 30.

The Town Council adopts budgets for the General Fund and two special revenue funds, the Water Pollution Control Fund and the Cheshire Community Pool Fund. The level of budgetary control, that is, the level at which expenditures cannot legally exceed the appropriated amount, is at the department level for the General Fund and at the fund level for the Water Pollution Control and Cheshire Community Pool Funds. Budget-to-actual comparisons are provided for these funds. The General Fund summary comparison is presented as part of the Required Supplementary Information section of this report with additional detail in the Supplemental Schedules section. The Water Pollution Control and Cheshire Community Pool fund comparisons are presented in the Supplemental Schedules section as well.

### **Factors Affecting Financial Condition:**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

**Local Economy:** The Town's October 1, 2020 Net Taxable Grand List of \$2,878,282,827 was an increase of \$34,160,260, or 1.20 percent more than the previous year. The Economic Development Commission ("EDC"), a seven-member body appointed by the Town Council, works with the Economic Development Coordinator to promote and develop the Town's economic resources. The EDC feels that economic growth should be of high quality and compatible with the Town and that future commercial and industrial growth be linked closely to thoughtful planning and zoning decisions.

The EDC takes an active role in issues that affect the Town's quality of life. EDC members feel that this involvement helps to make Cheshire a more attractive community in which to live and do business. The Economic Development Coordinator and EDC maintain contact with Cheshire companies as part of the

EDC's retention activities. The Coordinator visits local businesses and the EDC invites companies to their monthly meetings to learn about and discuss possible ways the Town could be of service.

As the pandemic loosens its grip, the Cheshire Business Community has fared well. Cheshire's largest employer, Bozzuto's, Inc. a total service wholesale distributor of food and household products to retailers in New England, New York, New Jersey and Pennsylvania continued to add employees as did Whole Foods distribution.

New Business development reached arguably the highest level in the past several decades with several major projects coming to fruition. Commercial and industrial development blossomed across the community. One of the most significant areas of growth was the Town's West Main Street Business District. The area has long been a focus to create a walkable downtown. The Ball & Socket Arts (BaSA) complex welcomed its first tenant in the long dormant historic manufacturing complex. BaSA, with the assistance of the State Department of Economic & Community Development (DECD), Federal Environmental Protection Agency (EPA) and the Town of Cheshire have successfully secured several million dollars in brownfield remediation funding over the past several years. The site was once home to a button and fastener manufacturer that at one time was one of Cheshire's largest employers. After years of decay, the site is being repurposed into a mixed-use arts and retail complex along the Farmington Canal Heritage Trail. Sweet Claude's, Cheshire's flagship homemade ice cream shop relocated to the site signifying a rebirth of the factory and has resulted in significant interest. Additional renovation and remediation projects continue at the site with tenants lining up to populate the 65,000SF complex. BaSA will anchor the West Main Street Business District with more developer interest than available space and major economic spin off benefits to the immediate area and the Town.

Within a short walk of BaSA Cheshire welcomed Rebel Interactive, a digital marketing agency. Rebel with offices in Southington and Farmington, consolidated operations to a 30,000SF former furniture Store with 100 employees and growing. Rebel Interactive has been named to *Inc. 5000 Fastest Growing Companies* multiple years in a row and has brought jobs to the area, young professionals and forged partnerships with the Board of Education and programs at Cheshire High School. Rebel's new 30,000SF headquarters includes state-of-the-art facilities for video and photography production, a podcast studio, warehouse space, and collaboration spaces galore.

Cheshire has been planning for and seeking developers for its interchange zone since Interstate 691 opened in 1986. The area, at the northern reaches of Town, has been the site of several failed development attempts ranging from an indoor mall to an outlet center. The Property has lacked the required infrastructure to support major development with a lack of water and sewer. In 2019 the Town adopted a special development district (SDD) and a Tax Increment Financing District (TIF). The Town Council, Planning, and Economic Development staff understood that without the Town's support the area would not reach its full development potential. The Town entered into a Credit Enhancement Agreement (CEA) which is the vehicle in which a developer can utilize the TIF program with a private developer for a project entitled Stonebridge Commons. The CEA outlined both the Town's and the developer's responsibilities. In October of 2021, the CEA was finalized and over the past year water and sewer lines have been extended to the 110-acre site by the private developer. The Stonebridge Commons development is a mix of residential and commercial development spread across 110 acres with a 30-acre open space component. The developer has received approvals to build 300 upscale apartments and 140 free standing cluster single family homes. The 160,000 square foot retail component received Wetlands approval, with Planning and Zoning review scheduled for February 2023. The final project components call for a hotel, restaurant, fuel station and medical offices with land use review expected prior to the end of 2023. The development is estimated to add upwards of 100 million dollars in grand list growth.

Along Route 10, several dormant lots have developments underway. Properties at 306 and 435 Highland Avenue, and 687 South Main Street are under construction. A new 10,000SF day care, Chase Bank and dentist office are under construction or have opened in the past year. The developers of each property worked with planning and zoning and town beautification and have greatly improved the appearance of Route 10.

The Manufacturing sector saw growth as well. Property at 25 Knotter Drive a 40,000 SF building on 7 Acres transferred to HOB Industries for \$2.1 million. HOB Industries will be consolidating operations from Wolcott and Waterbury into this location with 30 employees. HOB Industries is a metals manufacturer and

the largest producer of "wick clips" for candles. HOB is investing significantly into the building with a ribbon cutting anticipated in early 2023. Several prospective tenants are working with the property owner of 181 West Johnson Avenue to occupy the approved approximately 240,000SF shovel ready pad site. With the occupancy of 25 Knotter Drive Cheshire's industrial parks have zero vacancies in 2022.

Counterweight Brewing opened in the spring of 2022 at a 3.5-acre site on 7 Diana Court. The two story, 31,555 square foot manufacturing and tasting facility has become a major draw for the community with its expansive manufacturing operation and multi-level tasting and event spaces. Counterweight joins Cheshire Craft Brewing that opened in early 2021 and has immediately become a gathering place for Central Connecticut. The proximity of both Counterweight and Cheshire Craft Brewing to Viron Rondo Osteria, one of Connecticut's top restaurants, is creating a statewide draw to Cheshire.

The Town continues to rank among the most desirable communities in the State of Connecticut by both Connecticut Magazine and Money Magazine's ranking of 28<sup>th</sup> best place to live in the United States. The public-school system is one of the highest performing in the State of Connecticut. The residential real-estate market is booming with demand far outpacing supply and the average home price soaring with new construction starting above \$600,000. Socioeconomic indicators such as per capita and median family income and educational attainment continue to far exceed the norms in Connecticut and nationally. Further, Cheshire's unemployment rates continue to be below the State of Connecticut average. Past practices of open space acquisition, sound planning, and fiscal management are ensuring the community retains its charm while welcoming new residents and businesses.

**Long-Term Financial Planning:** Annually the Town Manager prepares a Five Year Capital Expenditure Plan (CEP), which is reviewed by the Planning and Zoning Commission and the Town Council in accordance with the Town Charter. The approved fiscal year 2022 Five Year CEP includes various projects and major equipment purchases totaling \$70,063,000 for the five year period beginning with fiscal year 2022 and ending with fiscal year 2026.

Included in the Five-Year CEP is a recommended Annual Capital Expenditure Budget for the current fiscal year. The 2022 Annual Capital Expenditure Budget approved by the Town Council, and citizen referendum when required, totaled \$15,846,000 and included 31 projects. Borrowing authorizations of \$14,318,000 were approved for financing them along with \$1,118,000 from the Capital and Non-recurring fund. Grants totaling \$2,975,000 are also projected to be available.

As part of this process, the Town extensively evaluates the funding of all projects through a comprehensive debt analysis, including the impact of current and future debt on the Town's mill rate, debt service and related ratios. This model is helpful in prioritizing projects and making prudent financial decisions.

Relevant Financial Policies: The Town has several policies that establish parameters and offer financial guidance, including capital expenditure plan, debt, general fund balance and investment policies. In accordance with the fund balance policy, while still maintaining an unassigned fund balance of 8 percent to 9.25 percent of operating expenditures, the Town designated \$1,700,000 of the General fund balance for the fiscal year 2022 budget. The capital expenditure plan policy is complied with each year during the capital budget process when departments submit capital requests for a five-year period. Requests are reviewed and prioritized, and a comprehensive ten-year debt analysis is performed. Debt service is below 10 percent of expenditures as prescribed in the debt policy. The Town continues to invest assets based on an informal policy of safety, liquidity and yield. Pension and other postemployment benefit trusts have an investment policy statement that is reviewed and updated annually.

#### **Major Initiatives**

The Town strives to ensure continuing fiscal stability, enhance communications and responsiveness to citizens, preserve and enhance services, and continue to advance key capital projects. Through extensive budget planning, comprehensive program and service evaluations, conservative budgeting practices, and the efficient use of resources, the adopted fiscal year 2022 budget increase was a modest 3.47 percent. Actual budgetary activity during fiscal year 2022 resulted in a surplus of \$3,775,943.

Capital projects completed during fiscal year 2022 include road paving under the Town's road maintenance program, an upgraded public safety communication system, and boiler replacements at the Senior Center. Other capital purchases included various technology equipment upgrades at the Town and schools and some new vehicles and equipment, mostly for the Police, Fire and Public Works departments. In addition, several new roads and sidewalks were turned over to the Town from developers including Farmers Court, Monarch Place and Cornwall Avenue Extension.

In addition, several projects were completed at Cheshire Public Schools during the fiscal year including several underground oil tank replacements, stadium lighting upgrades at Cheshire High School, roofing at Dodd Middle School, and flooring and sidewalk replacements at various schools.

The Town of Cheshire established The School Modernization Committee (SMC) to review Cheshire's educational facilities and develop a comprehensive master plan. Over the course of a year, the SMC reviewed a multitude of factors and generated a final report. Faced with growing enrollment and aging facilities, the SMC recommended the construction of two new K-6 Elementary Schools. The two new schools would replace three of the oldest school buildings in the district, greatly increasing building efficiencies, and meet the needs of the growing district. The Board of Education and Town Council reviewed the SMC report and developed a final plan. The Plan entitled, "Cheshire Public Schools, Next Generation" with a total cost of \$166.6 million was forwarded to voters at a referendum in November 2022. Eligible project costs are 50 percent reimbursable by the State of Connecticut. The referendum was overwhelmingly supported by voters with every voting district approving the project. The Town has since established a school building committee charged with steering the transformative project to completion.

#### <u>Awards</u>

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Cheshire for its annual comprehensive financial report (ACFR) for the fiscal year ended June 30, 2021. The Town has received this award for twenty-nine consecutive years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, Cheshire also received the GFOA's Distinguished Budget Presentation Award for its annual budget document. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories: a policy document, a financial plan, an operations guide, and a communications device.

## Acknowledgements

It is my pleasure to direct the Finance Department and I wish to extend my sincere appreciation to the staff for their assistance with the year-end closing process, preparation of account schedules, and the development of this report. Special thanks to Gina DeFilio, Deputy Finance Director, Donna Ouellet, Deputy Treasurer and Hope Larson, Budget/Treasury Analyst, and Finance personnel Ivana Lewis, Sharon Churma, and Kim Wantroba. Additionally, I appreciate the efforts of the Town department heads, supervisors and staff, for their cooperation in this process.

I would also like to thank the Town Manager Sean Kimball, and the Town Council for their interest and support in planning and conducting the financial affairs of the Town in a responsible and progressive manner.

Finally, the professional assistance and guidance provided by our independent auditors, CliftonLarsonAllen LLP, was most appreciated.

Respectfully submitted,

James Jaskot

Finance Director/Treasurer

#### INDEPENDENT AUDITORS' REPORT

Audit Committee
Town of Cheshire, Connecticut

## Report on the Audit of the Financial Statements

## **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Cheshire, Connecticut, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town of Cheshire, Connecticut's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Cheshire, Connecticut, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Cheshire, Connecticut and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Cheshire, Connecticut's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of Town of Cheshire, Connecticut's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about Town of Cheshire, Connecticut's ability to continue as a going concern for a
  reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Cheshire, Connecticut's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 1, 2023, on our consideration of the Town of Cheshire, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Cheshire, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Cheshire, Connecticut's internal control over financial reporting and compliance.

## Town of Cheshire, Connecticut Management's Discussion and Analysis - *unaudited* June 30, 2022

As management of the Town of Cheshire, Connecticut (the Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-viii of this report as well as the Town's basic financial statements that follow this section.

To better understand the Town's financial activities, an overview of how the financial statements are presented in this book and the differences between the various financial statements are discussed below:

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements.** The government-wide financial statements are designed to provide readers with a summary of the Town's finances, on a full accrual basis, taking into account both long-term assets and liabilities.

The Statement of Net Position presents information on all Town assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash inflows or outflows in future fiscal periods, e.g., uncollected taxes and earned but unused, vacation leave.

Both of the government-wide financial statements distinguish functions of the Town between two categories: governmental activities that are principally supported by taxes and intergovernmental revenues and business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the Town include administration and finance, planning and development, public safety, public works, public health, social services, cultural services, leisure services, and education. The Town has no business type activities.

It is important to note that fiduciary funds are not presented in the government-wide statements as their assets cannot be used for Town operations. The Town is simply a conduit for these funds.

The government-wide financial statements can be found on pages 13-14 of this report.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town uses fund or modified accrual accounting to ensure and demonstrate compliance with finance-related legal requirements. All Town funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Therefore, long-term liabilities and capital assets are not presented.

Because the focus of governmental fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities in the government-wide statements.

The Town maintains 22 individual governmental funds that are classified as either major or nonmajor funds. The information for the major funds is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The Town's 3 major funds are the General Fund, which includes 2 funds that were reclassified to the General Fund as they did not meet the definition of a special revenue fund per GASB No. 54, the Capital Improvements Fund and the Debt Reserve Fund. The other 17 funds are nonmajor and are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the Combining and Individual Nonmajor Fund Financial Statements and Schedules section of this report.

The Town adopts an annual budget for its General Fund, Water Pollution Control, and Community Pool funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with their adopted budget.

The basic governmental fund financial statements can be found on pages 15-19 of this report.

**Proprietary Funds.** The Town maintains one type of proprietary fund: internal service funds. Internal service funds are used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its self-insured medical benefits and heart and hypertension payments. Individual fund data for the internal service funds is provided in the form of combining statements in the Supplemental and Combining and Individual Fund Financial Statements and Other Schedules section of this report. These services have been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 20-22 of this report.

**Fiduciary Funds.** The Town has one type of fiduciary funds: pension and other postemployment benefit trust funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government and are not available to support Town's programs. Therefore, these funds do not appear in the government-wide financial statements and appear separately in the fund financial statements.

The basic fiduciary fund financial statements can be found on pages 23-24 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in both the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-72 of this report.

**Required Supplementary Information.** The required supplementary information presents the Town's progress in funding its obligation to provide pension and other postemployment benefits to employees. This information for pensions and other postemployment benefits can be found on pages 73-79 of this report. Also included in the required supplementary information is the General Fund budgetary-basis revenue and expenditure financial report and notes. This information can be found on pages 80-82 of this report.

Supplemental and combining nonmajor fund statements and schedules showing detail for nonmajor governmental funds, internal service funds, fiduciary funds and capital assets are presented on pages 96-108 of this report.

## Financial Highlights-Government-Wide Financial Statements

- Total assets and deferred outflows of resources exceed liabilities and deferred inflows of resources resulting in a net position of \$83.747 million. The net position includes \$140.388 million invested in capital assets. The balance also includes \$6.295 million restricted for various programs and an unrestricted net position (deficit) of \$(62.937) million. Unrestricted net position, if any, may be used to meet the Town's ongoing obligations to citizens and creditors.
- Net position increased during the year by \$3.112 million resulting in a net position of \$83.747 million. The net investment in capital assets portion of net position increased by \$4.097 million. Restricted net position decreased by \$11.194 Million, mostly due to a decrease in cash restricted for capital projects. Unrestricted net position increased by \$10.210 million, mostly due to annual changes in pension and other postemployment plan liabilities.
- Overall, revenues decreased by \$5.566 million, or 3.70 percent, primarily due to an increase in property taxes of \$3.383 million and charges for services of \$1.417 million, offset by decreases in Operating Grants and Contributions of \$8.678 million and Capital Grants and Contributions of \$1.989 million. Charges for services rebounded after COVID concerns subsided with substantial increases in program and departmental revenues more consistent with pre-pandemic levels. The decrease in Operating Grants and Contributions was largely due to a decrease in revenue recognized for teacher pension and other postemployment plan liabilities that are funded by the State. The decrease in Capital Grants and Contributions was due to grant funded land acquisition and infrastructure projects that were completed in the prior year.
- Overall, expenses decreased by \$11.132 million, or 7.28 percent. The decrease was mostly due to a \$12.208 million decrease in Education expenses. Offsetting the overall decrease were increases in Public Safety and Planning and Development expenses totaling \$3.304 million. The decrease in education expenses was primarily due to a decrease in the pension and other postemployment expense recognition for liabilities associated with teacher retirement plans that are funded by the State. The increase in Public Safety expenses was partly due to an increase in net pension liabilities following a decline in asset market values. The Increase in Planning and Development Expenses was mainly due to State funded, brownfield remediation expenses at a former button and fastener manufacturing building that is being repurposed into a mixed-use arts and retail complex.

## Financial Highlights - Fund Financial Statements

- As of the close of the current fiscal year, the overall decrease in fund balance for governmental funds is \$7.127 million resulting in an ending fund balance of \$30.766 million. This decrease was generated mostly from a decrease in the Capital Improvements fund balance of \$8.072 million due to capital outlay expenditures of \$8.250 million, offset by \$.178 million of grants, contributions, and other revenues. In addition, the Debt Reserve Fund balance decreased by \$.445 million due to debt service payments in excess of transfers into the fund and income from investments. The General Fund and nonmajor fund balances increased by only \$.936 million and \$.453 million respectively.
- The fund balance of the General Fund at June 30, 2022 was \$17.505 million, an increase of \$.936 million from the prior fiscal year as noted above. For reporting purposes, one reserve fund and the Community Pool fund are combined with the General Fund as they did not meet the definition of a special revenue fund per GASB No. 54.
- The \$17.505 million fund balance of the General Fund on June 30, 2022 includes \$13.098 million of unassigned fund balance, or 10.02 percent of GAAP operating expenditures. There is also \$.095 million of nonspendable fund balance earmarked for prepaid expenditures and \$4.312 million of assigned fund balance. Assigned fund balance includes \$1.700 million assigned for the 2023 fiscal year budget and \$2.612 million assigned for outstanding 2022 fiscal year encumbrances.

## **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows exceeded liabilities and deferred inflows by \$83.747 million at the close of the most recent fiscal year.

## Town of Cheshire, Connecticut Summary Statement of Net Position June 30, 2022 and 2021

|                                      |    | Governmental Activities |    |              |

| Pension / OPEB related items         |    | 6,379,933               |    | 10,903,520   |
| Advance tax collections              |    | 7,283,170               |    | 1,417,725    |
| Leases                               |    | 732,608                 |    | -            |
| Total deferred inflows of resources  |    | 14,395,711              |    | 12,321,245   |
| Net Position                         |    |                         |    |              |
| Net investment in capital assets     |    | 140,388,311             |    | 136,291,559  |
| Restricted                           |    | 6,295,262               |    | 17,489,718   |
| Unrestricted (Deficit)               |    | (62,936,503)            |    | (73,146,527) |
| Total net position                   | \$ | 83,747,070              | \$ | 80,634,750   |

The net investment in capital assets, e.g., land, buildings, machinery and equipment, and infrastructure, represents \$140.388 million, or 167.6 percent of the Town's net position. These assets are used to provide services to Town citizens; and it should be noted that these assets are not available for future spending. While the net investment in capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A small portion of the Town's net position, \$6.295 million, represents resources that are subject to external restrictions from grantors on how they may be used.

The remainder is a deficit, unrestricted net position (deficit) of \$(62.937) million. Unrestricted net position, if any, may be used to meet the Town's ongoing obligations to citizens and creditors.

## Town of Cheshire Summary Statement of Activities Years Ended June 30, 2022 and 2021

|   | Governmental Activities                 |               |          |

**Governmental Activities.** The Town's net position for Governmental activities increased by \$3.112 million.

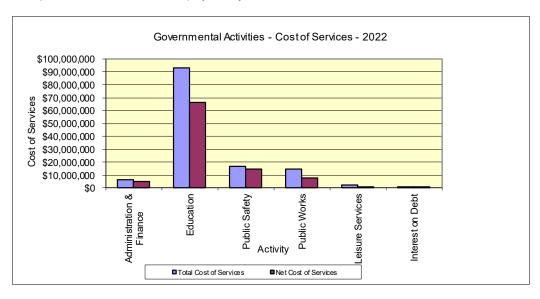

## Major revenue factors include:

- Overall, revenues decreased by \$5.566 million, or 3.70 percent, primarily due to an increase in property taxes of \$3.383 million and charges for services of \$1.417 million, offset by decreases in Operating Grants and Contributions of \$8.678 million and Capital Grants and Contributions of \$1.989 million. Charges for services rebounded after COVID concerns subsided with substantial increases in program and departmental revenues more consistent with pre-pandemic levels. The decrease in Operating Grants and Contributions was largely due to a decrease in revenue recognized for teacher pension and other postemployment plan liabilities that are funded by the State. The decrease in Capital Grants and Contributions was due to grant funded land acquisition and infrastructure projects that were completed in the prior year.
- Property tax revenue increased by \$3.383 million, consistent with the fiscal year 2022 budget increase of \$5.854 million that was partially offset by increases in other revenue sources, mostly State and federal grants.
- Investment Income and Other revenue decreased by \$.569 million, mostly due to an increase in the fair value of investments that have not matured.

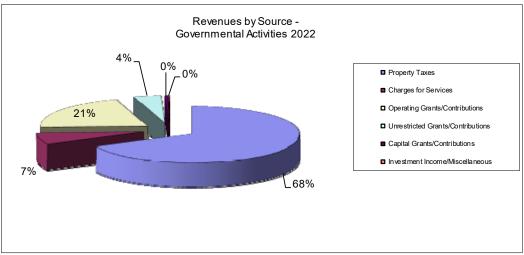

Major expense factors include:

Overall, expenses decreased by \$11.132 million, or 7.28 percent. The decrease was mostly due to a \$12.208 million decrease in Education expenses. Offsetting the overall decrease were increases in Public Safety and Planning and Development expenses totaling \$3.304 million. The decrease in education expenses was primarily due to a decrease in the pension and other postemployment expense recognition for liabilities associated with teacher retirement plans that are funded by the State. The increase in Public Safety expenses was partly due to an increase in net pension liabilities following a decline in asset market values. The Increase in Planning and Development Expenses was mainly due to State funded, brownfield remediation expenses at a former button and fastener manufacturing building that is being repurposed into a mixed-use arts and retail complex.

The chart below presents the costs of six of the Town's major governmental activities as well as their net cost (total cost less revenues generated by the activities). The Net Cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

The chart below represents all Town revenues by source:

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund or modified accrual accounting to demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$30.766 million, a decrease of \$7.127 million from the prior year. The \$30.766 million fund balance consists of \$19.240 million that is either nonspendable, restricted, committed, or assigned as defined by Governmental Accounting Standards Board No. 54, and an unassigned fund balance of \$11.526 million. Definitions for these fund balance classifications can be found in Note 1 to the financial statements.

#### **General Fund**

The General Fund is the main operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the General Fund is \$13.098 million while total fund balance is \$17.505 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 10.02 percent of total General Fund expenditures, while total fund balance represents 13.40 percent of that same amount.

## **Capital Improvements Fund**

The Capital Improvements fund balance was \$2.772 million, a decrease of \$8.072 million. Capital outlay of \$8.250 million was only partially offset by .178 million of grants, contributions, and other revenue.

#### **Debt Reserve Fund**

The Debt Reserve Fund balance was \$3.243 million, a decrease of \$.445 million. Debt service payments of \$1.461 million exceeded a transfer from the General Fund of \$1.000 million and investment income totaling \$.016 million. Starting in July 2017, debt service payments from this fund helped to mitigate the impact on taxpayers from a spike in debt service associated with a Connecticut Clean Water Fund loan that financed a major Water Pollution Control Plant upgrade.

#### **Capital Asset and Debt Administration**

**Capital Assets.** The Town's investment in capital assets, net of accumulated depreciation, for its governmental activities as of June 30, 2022, amounts to \$233.042 million. This investment in capital assets includes land, land improvements, buildings and improvements, vehicles, machinery and equipment, infrastructure, and construction in progress.

Major capital asset activity during the current fiscal year follows: Buildings and Improvements of \$.677 million were placed in service during the year including roofing at Dodd Middle School, flooring and doorway replacements at Cheshire High School, an underground storage tank replacement at Darcey School, two new boilers at the Senior Center, and new flooring and carpeting at various Town and school buildings. Vehicle purchases of \$.364 million were for new fleet vehicles at various departments. Machinery and Equipment additions of \$5.270 million was mostly for a new Public Safety Radio Communication System. Other additions include technology equipment upgrades and maintenance equipment for the Town and Board of Education ground crews. Infrastructure additions of \$1.994 million include school sidewalks, road paving projects under the Town's maintenance program, and new stadium lighting at Cheshire High School. Construction in progress had a balance of \$6.583 million, consisting of HVAC and locker room improvements at the Police Station and various school and infrastructure projects.

| Total                       | \$ 233,041,962          | 2 \$ 231,140,845       |  |

Additional information on the Town's capital assets can be found in Note 4 on page 41 of this report.

**Long-Term Debt.** At the end of the current fiscal year, the Town had total gross bonded debt and notes payable outstanding of \$96.839 million including \$3.374 million of unamortized bond premiums. The Town retired \$9.752 million in debt during the year, resulting in a decrease in gross debt outstanding of 9.15 percent over the prior year.

The Town maintains an "AAA" rating from both Fitch Ratings and Standard and Poor's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times total tax collections, including interest and lien fees. The current debt limit for the Town is \$662.830 million. The Town had debt issues outstanding that were \$93.465 million, or 14.10 percent of the total debt limitation.

Additional information on the Town's long-term debt can be found in Note 5 on pages 42-44 of this report.

## **Economic Factors and Next Year's Budgets and Rates**

Median household income was \$132,682 and per capita income was \$57,009 in 2022. For the fiscal year ended June 30, 2022, unassigned fund balance in the General Fund was \$13.098 million. These factors were among those considered in preparing the Town's budget for the 2023 fiscal year.

The 2023 General Fund budget increased by 2.81 percent, or \$3.433 million, and the mill rate increased by .60 mills to 34.32 mills. The Water Pollution Control Authority sewer use rate increased by \$10 to \$445 for the 2023 budget year.

## **Requests for Information**

This financial report is designed to provide a general overview for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director/Treasurer James Jaskot, Town of Cheshire, 84 South Main Street, Cheshire, CT 06410.

# Reconciliation of Fund Balance to Net Position of Governmental Activities June 30, 2022

| e different from the governmental fund balance sheet. The details this difference are as follows: |                |
|---|----------------|
| Total fund balance (Page 15)  | \$<br>30,765,8 |
| Capital assets, net of accumulated depreciation purchased in governmental                         |                |
| funds are reported as expenditures; however, the statement of net position                        |                |
| includes those capital assets among the assets of the Town as a whole.                            | 233,041,9      |
| Other long-term assets are not available to pay for current period                                |                |
| expenditures and, therefore, are deferred in the funds:   |                |
| Property tax and other receivables not currently available  | 1,731,6        |
| Some expenses including deferred outflows/inflows reported in the statement of                    |                |
| activities do not require the use of current financial resources and, therefore, are not          |                |
| reported as expenditures in the governmental funds.   |                |
| Deferred outflows of resources - pension related items  | 8,430,6        |
| Deferred outflows of resources - OPEB related items   | 1,030,8        |
| Deferred loss on refunding  | 693,6          |
| Deferred inflows of resources - pension related items   | (184,4         |
| Deferred inflows of resources - OPEB related items  | (6,195,4       |
| Internal service funds are used by management to charge the cost of                               |                |
| medical insurance to individual departments:  |                |
| The assets and liabilities of the internal service funds are included in                          |                |
| governmental activities in the statement of net position  | (104,3         |
| Some liabilities, including bonds payable, are not due and payable in the                         |                |
| current period and, therefore, are not reported in the funds:                                     |                |
| Bonds and notes payable   | (93,464,7      |
| Net pension liability   | (57,462,4      |
| Net OPEB liability  | (26,510,8      |
| Bond premium  | (3,374,2       |
| Accrued interest payable  | (998,3         |
| Landfill accrual  | (399,0         |
| Compensated absences  | (2,793,1       |
| Claims  | (120,0         |
| Lease payable   | (145,9         |
| Early retirement  | (194,6         |

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2022

| Net change in fund balances – total governmental funds (Page 17)  | \$ (7,126,775)  |
|---|---|
| Governmental funds report capital outlays as expenditures. However, in the statement  |   |
| of activities, the cost of those assets is allocated over their estimated useful lives and  |   |
| reported as depreciation expense. This is the amount by which capital outlays exceeded  |   |
| depreciation in the current period.   |   |
| Capital outlay  | 10,242,350  |
| Depreciation expense  | (8,060,138)   |
| Total   | 2,182,212   |
| The net effect of various miscellaneous transactions involving capital assets (i.e., sales,   |   |
| trade-ins, and donations) is to increase net position. In the statement of activities, only the   |   |
| loss on the sale of capital assets is reported. However, in the governmental funds, the   |   |
| proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold.   | (83,271)  |
| amers from the change in fund balance by the cost of the capital assets sold.   | (03,271)  |
| Changes in receivables that impact revenues in the statement of activities that do not  |   |
| provide current financial resources are not reported as revenues in the funds.  |   |

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies

**Reporting entity:** The Town of Cheshire, Connecticut (the Town), was incorporated in 1780. The Town covers 33 square miles located in New Haven County.

The Town operates under a Council-Manager form of government, as prescribed by its Charter, which was adopted June 9, 1971, and most recently revised November 7, 2017. The Town provides a full range of services including general government, public safety, public works, health, social services, recreation, and education. The accompanying financial statements conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments.

Accounting principles generally accepted in the United State of America require that the reporting entity include the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A government is financially accountable for a legally separate organization if it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the government. These criteria have been considered and have resulted in the inclusion of the fiduciary component units as detailed below.

The Town has established three single-employer Public Retirement Systems (PERS) and two postretirement health care benefits (OPEB) plans to provide retirement benefits and post-retirement health care benefits primary to employees and their beneficiaries. The Town appoints the majority of the Retirement Board which performs the duties of a governing board for the Pension and OPEB plans and is required to make contributions to the pension and OPEB plans and can impose its will on the plans.

The financial statements of the fiduciary component units are reported as Pension and OPEB Trust fund in the fiduciary fund financial statements. Separate financial statements have not been prepared for the fiduciary component units.

#### Basis of presentation:

**Government-wide and fund financial statements:** The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Taxes and intergovernmental revenues normally support governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, including fiduciary component units, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### Note 1. Significant Accounting Policies (Continued)

Measurement focus, basis of accounting, and financial statement presentation: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year when levied for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of grant revenues which are considered available if they are collected 120 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred as under accrual accounting, however, debt service expenditures, pension, OPEB, early retirement, landfill, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due (matured).

Property taxes, when levied for, intergovernmental revenue when eligibility requirements are met, licenses, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual (measurable) and so have been recognized as revenues of the current fiscal period, if available. All other revenue items are considered to be measurable only when cash is received by the Town.

**Governmental funds:** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance.

The Town reports the following major governmental funds:

The **General Fund** is the Town's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The **Capital Improvements Fund** accounts for financial resources to be used for the acquisition or construction of capital facilities and major equipment. Resources for the capital improvements fund generally consist of proceeds from long-term debt, grants, and transfers from other funds.

The **Debt Reserve Fund** is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

The other governmental funds of the Town are considered nonmajor and are as follows:

**Special Revenue Funds** are used to account for and report the proceeds of special revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

**Capital Project Funds** are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

#### Note 1. Significant Accounting Policies (Continued)

**Permanent Funds** are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs. The endowments have no appreciation of investments as they are invested in certificates of deposit which are held to maturity. All of the income is available for expenditure and there are no donor-imposed restrictions.

**Proprietary funds:** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows.

The Town reports the following proprietary fund:

*Internal Service Funds* account for risk financing activities for medical insurance benefits and heart and hypertension claims under GASB Statement No. 10.

**Fiduciary funds:** The Town reports the following as fiduciary funds:

**Pension Trust Funds** account for the fiduciary activities of the Cheshire Retirement System, which accumulates resources for pension benefit payments to qualified employees and volunteer firefighters.

Other Postemployment Trust Funds account for the accumulation of resources to pay retiree medical benefits.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation (e.g., sewer usage charges). Interfund reimbursements are also not eliminated. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's internal service funds are charges to other Town funds for medical insurance premiums. Operating expenses for internal service funds include the cost of claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### Pension plan accounting:

**Pension trust funds:** Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Investments are reported at fair value.

Funding policy: The Town makes annual contributions based on management decisions.

Governmental funds and governmental activities: In governmental funds, expenditures are recognized when they are paid or are expected to be paid with current available resources. In governmental activities, expense is recognized based on actuarially required contributions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plan and additions to/deductions from the Pension Plan's fiduciary net position have been determined on the same basis as they are reported by the Pension Plan. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

#### Note 1. Significant Accounting Policies (Continued)

Other postemployment obligations (OPEB) accounting:

**OPEB trust funds:** The OPEB Trust Funds are reported on the accrual basis of accounting. Employer contributions are recognized in the period in which the contributions are due, and the Town has made a formal commitment to provide contributions. Investments are reported at fair value.

Governmental funds and governmental activities: In governmental funds, expenditures are recognized when they are paid or are expected to be paid with current available resources. In governmental activities, expense is recognized based on actuarially required contributions. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Funding policy: The Town makes annual contributions based on management decisions.

**Accounting estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

**Restricted assets:** At June 30, 2022, the Town had \$4,323,800 included within restricted assets that relates to unspent bond proceeds which are to be used for the acquisition of capital assets.

**Encumbrances:** Encumbrances represent commitments related to contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as assigned fund balance as they do not constitute either expenditures or liabilities.

**Property taxes:** Property taxes are assessed as of October 1 and levied on the following July 1st. Real estate taxes are generally due and payable in two installments on July 1 and January 1. Real estate taxes not in excess of \$100 and motor vehicle and personal property taxes are due and payable in one installment on July 1. Motor vehicle supplemental bills are due on January 1. Payments not received within one month after the due date become delinquent, with interest charged at the rate of 1½ percent per month. Assessments for real and personal property, excluding motor vehicles, are computed at 70 percent of the market value. Liens are recorded during the month of April.

**Allowance for doubtful accounts:** Accounts, property taxes, and notes receivable for the Town are reported net of allowance for doubtful accounts. The allowance for doubtful accounts represents those amounts which are deemed uncollectible based upon past collection history and analysis of creditor's ability to pay.

**Cash equivalents:** The Town classifies money market funds, treasury bills, and certificates of deposit having original maturities of three months or less when purchased as cash equivalents.

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies (Continued)

The Connecticut State Treasurer's Short-Term Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c through 3-27e. Investment guidelines are adopted by the State Treasurer.

The pooled fixed income investments adhere to GASB Statement No. 79, "Certain External Investment Pools and Pool Participants." The value of the position in the pool is the same as the value of the pool shares. These cash equivalents are stated at amortized cost.

#### **Investments:** Investments are stated as follows:

- U.S. Government Agencies, U.S. Government Securities, Sovereign Fixed Income, Municipal Bonds, Collateralized Mortgage Obligations using quoted market price.
- Common Stock, and Equity Funds closing market prices as reported on the primary market or exchange on which they trade.
- Money Market Instruments amortized cost which approximates fair value.
- Negotiable Certificates of Deposit with maturities from one to five years held in an investment pool are recorded as fair market value.
- Hedge Funds may include private equity partnerships, hedge and absolute return funds for which
  there may be no ready market to determine fair value. These investments are valued using the
  most recent valuation available from the external fund manager. These estimated values do not
  necessarily represent the amounts that will ultimately be realized upon the disposition of those
  assets, which may be materially higher or lower than values determined if a ready market for the
  securities existed.

The majority of the Town's investments are in the Trust Funds.

**Fair value:** The Town uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for certain assets or liabilities. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset or liability.

Fair value measurements focus on exit prices in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment.

The Town's fair value measurements are classified into a fair value hierarchy based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies (Continued)

The three categories within the hierarchy are as follows:

- Level 1: Quoted prices in active markets for identical assets and liabilities.
- **Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, interest rates and yield curves observable at commonly quoted intervals, implied volatilities, credit spreads, and market-corroborated inputs.
- **Level 3:** Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flows methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgement.

**Investments measured at the net asset value (NAV):** Investments valued using the net asset value (NAV) per share (or its equivalent) are considered "alternative investments" and, unlike more traditional investments, generally do not have readily obtainable market values and take the form of limited partnerships. The Town values these investments based on the partnerships' audited financial statements. If June 30 statements are available, those values are used preferentially. However, some partnerships have fiscal years ending at other than June 30. If June 30 valuations are not available, the value is progressed from the most recently available valuation taking into account subsequent calls and distributions.

See Note 2 for additional information regarding fair value.

**Inventory:** All inventory is stated at the lower of cost or market and determined on a first-in, first-out basis. These commodities are recorded as expenditures when consumed rather than when purchased.

Capital assets: Capital assets, which include property, plant, equipment, and infrastructure assets, e.g., roads, bridges, sidewalks, and similar items, are reported in the governmental column in the government-wide financial statements. The government defines capital assets, as assets with an initial, individual cost of more than \$5,000 for equipment and improvements and all costs for infrastructure, and an estimated useful life in excess of one-year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, works of art, and similar items are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies (Continued)

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u>              | Years |
|----------------------------|-------|
|                            |       |
| Buildings and improvements | 8-100 |
| Land improvements          | 10-50 |
| Infrastructure:            |       |
| Roads                      | 6-50  |
| Sidewalks                  | 50    |
| Sewer lines                | 75    |
| Bridges and culverts       | 50    |
| Machinery and equipment    | 3-30  |
| Vehicles                   | 3-25  |

Capital assets are reported as expenditures and no depreciation expense is reported in the governmental fund financial statements.

#### Compensated absences:

**Town:** All employees are granted vacation and/or sick time based upon contractual provisions. At anniversary year-end, unused vacation up to a maximum of 10 days may be carried forward to the next vacation year with the approval of the Town Manager. Sick time accumulates and vests based upon a sliding scale related to years of service. The maximum sick time to be paid is 33 percent of the accumulated time. A liability for amounts expected to be paid for accrued vacation and/or sick time earned is reported in the government-wide statements. In the governmental funds, the amounts are reported when paid or when payment is due.

**Board of Education:** All full-time employees, except teachers, are granted vacation time based upon contractual provisions. At anniversary year-end, unused vacation may be accrued. Sick time accumulates subject to various contractual limitations, but retirement payouts are generally limited to 10 days. A liability for amounts expected to be paid for the accrued vacation and/or sick time earned is reported in the government-wide statements. In the governmental funds, the amounts are reported when paid or when payment is due.

**Long-term obligations:** In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable as reported include the applicable bond premium or discount. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, and debt principal payments are reported as expenditures.

#### Note 1. Significant Accounting Policies (Continued)

**Net pension liability:** The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

**Net OPEB liability:** The net OPEB liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total OPEB liability), net of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

**Deferred outflows/inflows of resources:** In addition to assets, the statement of net position has a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports a deferred charge on refunding in this manner in the government-wide statement of net position. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The Town also reports deferred outflows related to pension and other postemployment benefits in the government-wide statement of net position. A deferred outflow of resources related to pension and other postemployment benefits results from differences between expected and actual experience, changes in assumptions, or other inputs. These amounts are deferred and included in pension and other postemployment benefits expense in a systematic and rational manner.

In addition to liabilities, the statement of net position has a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town reports advance property tax collections in the government-wide statement of net position and in the governmental funds balance sheet. Advance property tax collections represent taxes inherently associated with a future period. This amount is recognized during the period in which the revenue is associated. Also, for governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, grants, and charges for services. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available. Finally, the Town reports deferred inflows related to leases in the government-wide statement of net position and in the proprietary funds statement of net position. Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term.

The Town also reports a deferred inflow of resources related to pensions and other postemployment benefits in the government-wide statement of net position. A deferred inflow of resources related to pension and other postemployment benefits results from differences between expected and actual experience, changes in assumptions, or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner.

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies (Continued)

**Lessee Arrangements**: The Town determines if an arrangement is a lease at inception. Leases are included in lease assets and lease liabilities in the statements of net position.

Lease assets represent the Town's control of the right to use an underlying asset for the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease assets are recognized at the commencement date based on the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Lease assets are amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Lease liabilities represent the Town's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the commencement date based on the present value of expected lease payments over the lease term, less any lease incentives. Interest expense is recognized ratably over the contract term.

The lease term may include options to extend or terminate the lease when it is reasonably certain that the Town will exercise that option.

The Town records payments for short-term leases with a lease term of 12 months or less as expenses as incurred, and these leases are not included as lease liabilities or right-to-use lease assets on the statements of net position.

Individual lease contracts do not provide information about the discount rate; therefore, the incremental borrowing rate was used to calculate the present value of expected lease payments.

**Lessor Arrangements:** The Town determines if an arrangement is a lease at inception. Leases are included in lease receivables and deferred inflows of resources in the statements of net position and fund financial statements.

Lease receivables represent the Town's claim to receive lease payments over the lease term, as specified in the contract, in an exchange, or exchange-like transaction. Lease receivables are recognized at commencement date based on the present value of expected lease payments over the lease term, reduced by any provision for estimated uncollectible amounts. Interest revenue is recognized ratably over the contract term.

Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term.

Amounts to be received under residual value guarantees that are not fixed in substance are recognized as a receivable and an inflow of resources if (a) a guarantee payment is required and (b) the amount can be reasonably estimated. Amounts received for the exercise price of a purchase option or penalty for lease termination are recognized as a receivable and an inflow of resources when those options are exercised.

The Town records payments received for short-term leases with a lease term of 12 months or less as revenue as the payments are received. These leases are not included as lease receivables or deferred inflows on the statements of net position and fund financial statements.

#### **Notes to Financial Statements**

#### Note 1. Significant Accounting Policies (Continued)

Individual lease contracts do not provide information about the discount rate; therefore, the incremental borrowing rate was used to calculate the present value of expected lease payments.

**Net position:** In the government-wide financial statements, net position is classified in the following categories:

**Net investment in capital assets:** The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

**Restricted net position:** These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

*Unrestricted net position:* This category represents the net position of the Town, which are not reported in the other categories.

**Fund balance:** In the fund financial statements, the Town reported the following governmental fund balance classifications:

**Nonspendable:** Amounts which cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

**Restricted:** These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

**Committed:** This represents amounts constrained prior to year-end for a specific purpose by a government using its highest level of decision-making authority (Town of Cheshire Town Council.) Commitments may be established, modified, or rescinded only through resolutions approved by the Town Council as per the Town Fund Balance policy.

**Assigned:** Amounts constrained for the intent to be used for a specific purpose by a governing board or a body or official that has been delegated authority to assign amounts. Under the Town's Fund Balance policy, the Town Council has by resolution authorized the Town Manager or the Finance Director to assign fund balance.

**Unassigned:** The residual amount not allocated to any other fund balance category in the General Fund and any residual deficit balance of any other governmental funds.

When both restricted and unrestricted amounts are available for use, it is the Town's practice to use restricted resources first. Additionally, the Town would first use committed, then assigned, and lastly unassigned.

As of June 30, 2022, the Town has a minimum General Fund balance policy to maintain an unassigned balance of at least 9.25 percent of the previous year's audited budgetary expenditures.

#### Note 1. Significant Accounting Policies (Continued)

**Adoption of New Accounting Standards:** In June 2017, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases*. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The Town adopted the requirements of the guidance effective July 1, 2021 and has applied the provisions of this standard to the beginning of the period of adoption.

#### Note 2. Cash, Cash Equivalents, and Investments

**Deposits:** The Town has a policy that deposits can include demand and savings accounts and certificates of deposits. Town policy for custodial credit risk follows the State of Connecticut requirements that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk-based capital ratio.

**Investments:** Town policy for eligible investments are governed by State of Connecticut Statutes which, in general, allow the Town to invest in obligations of the United States of America or United States government sponsored corporations, in shares or other interests in any custodial arrangement, pool, or no-load, open-end management type investment company or investment trust (as defined), in obligations of any State or political subdivision rated within the top two rating categories of any nationally recognized rating service, or in obligations of the State of Connecticut or political subdivision rated within the top three rating categories of any nationally recognized rating service. For the Capital Nonrecurring fund, not more than 31 percent can be invested in equity securities. Investment income is recorded in the fund in which it was earned.

The Town has an investment policy for each of its pension funds and an investment policy for the Police Post-Employment Healthcare Fund that provides an asset allocation, over a full market cycle of approximately 65 percent equities (or alternative investment strategies as equivalents) and 35 percent fixed income and cash (or alternative investment strategies as equivalents). For purposes of this document, a full market cycle is defined by the Retirement Board to be no less than three years, or no more than seven years.

The allocation targets and ranges for all plans are expressed in the Investment Policy Statement as follows:

|  | Minimum* | Target* | Maximum* |
|--|----------|---------|----------|
| Global equity securities or funds        | 35%      | 65%     | 80%      |
| Fixed income and cash                    | 20%      | 35%     | 65%      |
| Domestic equity securities or funds      | 40%      | 60%     | 80%      |
| International equity securities or funds | 20%      | 40%     | 60%      |

<sup>\*</sup> as a percentage of total equity

For both investment policies, no more than 5 percent (at cost) or 10 percent (at market) may be invested in any one company; no more than 20 percent exposure to any one industry.

#### **Notes to Financial Statements**

#### Note 2. Cash, Cash Equivalents, and Investments (Continued)

**Concentrations:** The Town's policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific issuer.

#### Custodial credit risk:

<u>Investments</u>: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Pension Plan does not have custodial credit risk policies for investments.

The following represents the investments in each respective Plan that represents more than 5 percent of the respective Plan's net position as of June 30, 2022:

| Town Pension Fund           |                 |
|-----------------------------|-----------------|
| Pointer                     | \$<br>3,911,779 |
| Ironwood International Ltd. | 4,361,955       |
| Police Pension Fund         |                 |
| Pointer                     | 2,379,789       |
| Ironwood International Ltd. | 2,653,661       |

<u>Deposits</u>: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2022, approximately \$12,207,729 of the Town's approximate bank balance of \$29,676,808 was uninsured and uncollateralized.

#### **Notes to Financial Statements**

# Note 2. Cash, Cash Equivalents, and Investments (Continued)

Cash, restricted cash, and investments of the Town, Pension, and OPEB trust funds consisted of the following at June 30, 2022:

| Cash, restricted cash, and cash equivalents: Deposits with financial institutions State of Connecticut Short-Term Investment Fund | \$ 14,910,963<br>22,830,604 |
|---|-----------------------------|
| Total cash, restricted cash, and cash equivalents   | 37,741,567                  |
| Investments: General Fund:  |                             |
| Negotiable Certificates of deposit  | 12,044,087                  |
| U.S. Government Securities  | 3,295,649                   |
| Special Revenue Funds:  |                             |
| Certificates of deposit   | 650,732                     |
| Permanent Funds: Certificates of deposit  | 50.075                      |
| Total governmental funds investments  | 16,040,543                  |
| Total governmental lunus investments  | 10,040,343                  |
| Pension and OPEB Trust Funds:   |                             |
| Common stocks   | 10,378,812                  |
| Money market mutual funds   | 3,866,200                   |
| Fixed income mutual funds   | 12,685,276                  |
| Equity mutual funds   | 25,397,649                  |
| Private equity funds  | 4,311,115                   |
| Alternative investments   | 23,558,321                  |
| Total pension and OPEB investments  | 80,197,373                  |
| Total investments   | 96,237,916                  |
| Total cash, restricted cash, cash equivalents, and investments  | \$ 133,979,483              |

<sup>\*</sup> These investments are uninsured, with securities held by the counterparty, but in the Town's, or the Pension Plan's name.

#### **Notes to Financial Statements**

#### Note 2. Cash, Cash Equivalents, and Investments (Continued)

Cash, cash equivalents, restricted cash and investments are classified in the accompanying financial statements as follow:

| Statement of Net Position:                                     |                   |
|--|-------------------|
| Cash and cash equivalents                                      | \$<br>31,989,245  |
| Investments  | 16,040,543        |
| Restricted cash and cash equivalents                           | 4,323,800         |
| Total  | 52,353,588        |
| Fiduciary Funds:   |                   |
| Cash and cash equivalents                                      | 1,428,522         |
| Investments  | 80,197,373        |
| Total  | 81,625,895        |
|  | <br>_             |
| Total cash, restricted cash, cash equivalents, and investments | \$<br>133,979,483 |

<u>Interest rate risk</u>: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the Town's and fiduciary trust funds' debt type investments to this risk using the segmented time distribution model is as follows:

|                           |     |            | I  | Investment Maturities (In Years) |    |            |  |  |  |  |
|---------------------------|-----|------------|----|----------------------------------|----|------------|--|--|--|--|
|                           |     | Fair       |    | Less Than                        |    | 1 - 5      |  |  |  |  |
| Type of Investment        |     | Value      |    | 1 Year                           |    | Years      |  |  |  |  |
| Money market mutual funds | \$  | 3,866,200  | \$ | 3,866,200                        | \$ | -          |  |  |  |  |
| Fixed income mutual funds |     | 12,685,276 |    | -                                |    | 12,685,276 |  |  |  |  |
| Total                     | _\$ | 16,551,476 | \$ | 3,866,200                        | \$ | 12,685,276 |  |  |  |  |

<u>Credit risk</u>: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the actual rating by Standard and Poor's as required for each debt-type investment.

| Standard & Poor's | STIF             | Mo<br>M | Fixed Income<br>Mutual Fund |                  |  |
|-------------------|------------------|---------|-----------------------------|------------------|--|
| Unrated           | \$<br>22,830,604 | \$      | 3,866,200                   | \$<br>12,685,276 |  |
| Total             | \$<br>22,830,604 | \$      | 3,866,200                   | \$<br>12,685,276 |  |

#### Note 2. Cash, Cash Equivalents, and Investments (Continued)

**Fair value:** The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation input used to measure the fair value of the asset as shown in the table below. The Town has the following recurring fair value measurements as of June 30, 2022:

|  |               | Fair Value Measurements Using |               |              |  |  |
|--|---------------|-------------------------------|---------------|--------------|--|--|
|  |               | Quoted Prices                 |               | _            |  |  |
|  |               | in Active                     | Significant   | Significant  |  |  |
|  |               | Markets for                   | Other         | Other        |  |  |
|  |               | Identical                     | Observable    | Unobservable |  |  |

| Total investments measured by the NAV              | 23,558,321    | -                             |               |              |  |  |
| Total investments at fair value                    | \$ 96,237,916 | <u> </u>                      |               |              |  |  |

Investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in the active markets for those securities.

Investments measured by the net asset value (NAV) per share are described in the above schedule. A description of how the private equity funds are valued is presented below:

|                                       | <br>Fair<br>Value | Unfunded<br>Commitments | Redemption<br>Frequency<br>(If Currently<br>Eligible) | Redemption<br>Notice<br>Period |
|---------------------------------------|-------------------|-------------------------|---|--------------------------------|
| Investments Measured by the NAV:      |                   |                         |   |                                |

| Other alternative investments         | 1,754,586         | -                       | Daily   | Daily                          |
| Total investments measured at the NAV | \$<br>23,558,321  | <u>-</u>                |   |                                |

**Equity long/short hedge funds:** This type includes one fund of hedge funds that invests both long and short, primarily in global common stocks. Management of each hedge fund has the ability to shift investments from value to growth strategies, from small to large capitalization stocks, and from a net long position to a net short position.

#### **Notes to Financial Statements**

#### Note 2. Cash, Cash Equivalents, and Investments (Continued)

**Multi-strategy hedge funds:** This type invests in several hedge funds that pursue multiple strategies to diversify and reduce volatility. Underlying investments range across credit, fixed income, relative value, and other event driven strategies that are adjusted periodically by the investment managers' perception of the relative investment climate.

**Global opportunities hedge:** This type includes investments with exposure to a range of trading strategies executed across bond, equity, commodity, and foreign exchange futures markets. There is a range of trading strategies employed by managers including trend following, mean reversion, discretionary macro, and value. The drivers of returns for these approaches are different from those of equity portfolios and combining these approaches with equities has the potential to create portfolio benefits above those experienced by an equity-only portfolio.

**Other alternative investments:** This type includes alternative investments such as commodities, gold, and real estate that are held within mutual funds.

#### Note 3. Interfund Transfers

Interfund transfers during the year ended June 30, 2022 were as follows:

|                             | T  | ransfers In | Transfers Out |           |  |
|-----------------------------|----|-------------|---------------|-----------|--|
| General Fund                | \$ | 689.712     | Ф             | 2,000,000 |  |
|                             | φ  | ,           | φ             | 2,000,000 |  |
| Debt Reserve Fund           |    | 1,000,000   |               | -         |  |
| Nonmajor Governmental Funds |    | 1,000,000   |               | 689,712   |  |
| Total                       | \$ | 2,689,712   | \$            | 2,689,712 |  |

Transfers are used to account for: (1) financing by the General Fund of programs accounted for in other funds in accordance with budgetary appropriations; (2) sewer and water assessments and sewer usage charges collected in special revenue funds appropriated to General Fund to offset debt service expenditures; and (3) the annual transfer of accumulated interest from the General Town Funds Special Revenue Fund to the General Fund.

<sup>\*</sup> Bonds have callable features.

All long-term liabilities are generally liquidated by the General Fund, with the exception of heart and hypertension benefits which are accounted for in the Internal Service Fund.

<sup>(1)</sup> Sewer bonds are partially funded by sewer assessments transferred from the Sewer and Water Assessments Fund.

<sup>(2)</sup> Improvement bonds are partially funded by water assessments transferred from the Sewer and Water Assessments Fund

**Bonds authorized but unissued:** Total authorized but unissued debt at June 30, 2022 consists of the following:

| General purpose | \$<br>14,807,816 |
|-----------------|------------------|
| Schools         | 5,376,510        |
| Sewers          | <br>735,000      |
| Total           | \$<br>20,919,325 |

**Legal debt limit:** The Town's indebtedness (including authorized but unissued bonds), net of principal reimbursements expected from the state, does not exceed the legal debt limitation as required by the Connecticut General Statutes as reflected in the following schedule:

| Category                            | Debt Limit        | Indebtedness |            | Balance |             |
|-------------------------------------|-------------------|--------------|------------|---------|-------------|
|                                     |                   |              |            |         |             |
| General purpose                     | \$<br>213,052,500 | \$           | 63,532,032 | \$      | 149,520,468 |
| Unfunded pension benefit obligation | 284,070,000       |              | -          |         | 284,070,000 |
| Schools                             | 426,105,000       |              | 25,449,064 |         | 400,655,936 |
| Sewers                              | 355,087,500       |              | 25,548,900 |         | 329,538,600 |
| Urban renewal                       | 307,742,500       |              | -          |         | 307,742,500 |

The total overall statutory debt limit for the Town is equal to seven times annual receipts from taxation, or \$662,830,000.

**Landfill closure and post-closure care costs:** State and federal laws and regulations required the Town to place a final cover on its 12- and 18-acre landfill sites when it stopped accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. As of June 30, 2022, both landfill sites have been closed.

The projected liability reported at June 30, 2022 is estimated at \$399,000. The monitoring costs are based on what it would cost to perform all post-closure care at 2022 prices with a third party performing all closure work. Actual costs may also change based on inflation, deflation, technology, or changes in the applicable laws and regulations.

#### **Notes to Financial Statements**

#### Note 5. Long-Term Obligations (Continued)

The Town has landfill post-closure care costs as follows:

|                  |         | Monitoring |           |            |            |            |
|------------------|---------|------------|-----------|------------|------------|------------|
|                  | Year of | Costs      | Years     | Projected  | Short-Term | Long-Term  |
| Town Landfill    | Closure | (Estimate) | Remaining | Liability  | Liability  | Liability  |
| Southern Section | 2006    | \$ 28,500  | 14        | \$ 399,000 | \$ 28,500  | \$ 370,500 |

**Leases payable:** The Town leases various equipment for various terms under long-term, noncancelable lease agreements. The leases expire at various dates through 2026.

Total future minimum lease payments under lease agreements are as follows:

| Year Ending June 30, | Principal     | Interest |       | Total         |
|----------------------|---------------|----------|-------|---------------|
| 2023                 | \$<br>53,444  | \$       | 2,338 | \$<br>55,782  |
| 2024                 | 55,017        |          | 1,254 | 56,271        |
| 2025                 | 34,741        |          | 265   | 35,006        |
| 2026                 | 2,700         |          | 3     | 2,703         |
| Total                | \$<br>145,902 | \$       | 3,860 | \$<br>149,762 |

Right-to-use assets acquired through outstanding leases are shown below, by underlying asset class.

|                                | <br>Amount    |
|--------------------------------|---------------|
| Asset class:                   |               |
| Machinery and equipment        | \$<br>197,824 |
| Less: accumulated amortization | (54,109)      |
| Net book value                 | \$<br>143,715 |
|                                |               |

#### Note 6. Employee Retirement Systems

The Town administers three single employer, defined benefit pension plans. The three plans, Town Plan, Police Plan, and Volunteer Firefighter Plan are included in the financial statements as pension trust funds. The plans do not issue stand-alone financial reports. Plan contribution requirements and benefits are established by Town ordinances. Administrative expenses of the plan, including actuarial and legal fees, are paid from the trust fund. The Town reserves the right by action of the Council, after required public hearings, to amend the plans, subject to provisions, if any, in collective bargaining agreements.

**Plan administration:** The Retirement Board (Board) is responsible for the general administration and management of the pension plans. Membership on the Board is as follows:

- The regular members of the Board are 5 resident electors of the Town. They are appointed by the Town Council and serve four-year terms.
- Police members are two representatives appointed by the President of the Cheshire Police
  Department Collective Bargaining Unit. They serve a four-year term and vote only on matters
  relating exclusively to police officers.
- A Volunteer Fire Department Member is a representative appointed by the Town Council. The
  representative serves a four-term term and votes only on matters relating exclusively to volunteer
  fire fighters.

| Total   | 483       | 86     | 161                      | -   |

<sup>(1)</sup> Volunteer firefighter count includes terminated volunteers and associate and lifetime members who are no longer active members but still affiliated with the volunteer organization.

Members are required to contribute to the plans and the Town is required to contribute the remaining amounts necessary to finance the employees coverage. Benefits and contributions are established by the Town and may be amended only by the Town Charter and Union negotiation. Benefits and refunds of the plan are recognized when due and payable in accordance with the terms of the plan. Administrative costs are financed by the plan and used in determining the Town's annual required contribution.

**Town plan:** This plan covers all regular full-time employees except teachers covered by the Connecticut Teachers' Retirement System and policemen. Employees are 100 percent vested after ten years of credited service. They may retire at age 65 after completing five years of credited service or, if earlier, the date upon which their age plus completed years of credited service equals 80. Retirement benefits are based on the plan and benefits elected. The plan was closed to new entrants for various union and nonunion groups between July 1, 2006 and June 30, 2012.

The latest valuation reflected no changes in plan provisions.

**Police plan:** This plan covers all regular, full-time police officers except those hired at age 55 and older. Officers are fully vested after completing ten years of credited service. Normal retirement shall be the earlier of 20 years of service or age 55 with 10 years of service. Final average compensation is computed in the same manner as for the Town plan. The plan also provides disability benefits, spousal benefits, and a death benefit equal to the return of employee contributions with interest if the employee has not satisfied the plan's vesting requirements. The plan was closed to new entrants on January 1, 2014.

The latest valuation reflected no changes in plan provisions.

**Volunteer firefighters plan:** This plan covers all volunteer firefighters. Firefighters are vested on a percentage basis after five years of credited service. Normal retirement is the participant's 65th birthday. Benefits are calculated based upon a flat rate schedule for years of service. The plan also provides disability benefits by the return of the value of their accrued benefit in a lump sum payment.

The latest valuation reflected no changes in plan provisions.

Employee contributions are based upon a percentage of earnings as follows:

|                    |        | Volunteer    |
|--------------------|--------|--------------|
| Town               | Police | Firefighters |
| Plan A - 3.5% - 4% | 8.50%  | None         |
| Plan B - 1.5% - 2% | -      | -            |

#### **Notes to Financial Statements**

### Note 6. Employee Retirement Systems (Continued)

**Rate of return:** For the year ended June 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was as follows. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

|        |        | Volunteer    |
|--------|--------|--------------|
| Town   | Police | Firefighters |
| -9.23% | -9.07% | -11.10%      |

**Net pension liability of the Town:** The components of the net pension liability of the Town at June 30, 2022 were as follows:

| Net Pension Liability   | Town                           | Police                         | I  | Volunteer<br>Firefighters |
|---|--------------------------------|--------------------------------|----|---------------------------|
| Total pension liability Fiduciary net position                    | \$<br>72,448,463<br>48,078,913 | \$<br>60,138,656<br>29,425,442 | \$ | 5,001,929<br>2,622,222    |
| Net pension liability   | \$<br>24,369,550               | \$<br>30,713,214               | \$ | 2,379,707                 |
| Fiduciary net position as a percentage of total pension liability | <br>66.36%                     | 48.93%                         |    | 52.42%                    |
| Covered payroll   | \$<br>10,456,128               | \$<br>3,990,499                |    | N/A                       |
| Net pension liability as a percentage of covered payroll          | 233.06%                        | 769.66%                        |    | N/A                       |

**Actuarial assumptions:** The total pension liability was determined by an interim actuarial valuation as of July 1, 2021, calculated based on the discount rate and actuarial assumptions below, and then was projected forward to the measurement date June 30, 2022. Since the valuation date, the Town signed two new union contracts, for Public Works and the Town Hall Union. The Public Works contract included a retirement incentive program. However, the program benefits are not payable by the pension plan and the program is not expected to significantly impact pension benefits. Therefore, there were no adjustments to the liabilities.

#### **Notes to Financial Statements**

### Note 6. Employee Retirement Systems (Continued)

**Discount rate:** The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the Town will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

|--------------------------------------|--------------------------|--------------------|------------------|----------------------|--|
| Town plan                            | \$ 24,369,550            | \$ 2,793,310       | \$ - \$          | 3,760,387            |  |
| Police plan                          | 30,713,214               | 4,515,121          | (6,172)          | 4,091,474            |  |
| Volunteer Firefighters plan          | 2,379,707                | 280,646            | (178,291)        | 578,781              |  |
| CT State Teachers' Retirement System |                          | 8,148,993          | -                |                      |  |
| Total                                | \$ 57,462,471            | \$ 15,738,070      | \$ (184,463) \$  | 8,430,642            |  |

**Assumed rate of return:** The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed. Best estimates of the real rates of returns for each major asset class are included in the pension plan's target asset allocation. Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2021, and the final investment return assumption, are summarized in the following table:

|  | Long-Term   | Long-Term   |
|--|-------------|-------------|
|  | Expected    | Expected    |
|  | Arithmetic  | Geometric   |
| Asset Class                            | Real Return | Real Return |
| Cash                                   | -0.32%      | -0.32%      |
| Intermediate - Term Bonds              | 0.45%       | 0.37%       |
| Broad U.S. Equities                    | 5.33%       | 3.70%       |
| Developed Foreign Equities             | 6.74%       | 4.90%       |
| Assumed Inflation - Mean               | 2.75%       | 2.75%       |
| Assumed Inflation - Standard Deviation | 1.16%       | 1.16%       |
| Portfolio Real Mean Return             | 3.95%       | 3.28%       |
| Portfolio Nominal Mean Return          | 6.70%       | 6.12%       |
| Portfolio Standard Deviation           |             | 11.25%      |
| Long-Term Expected Rate of Return      |             | 7.00%       |

#### Investments:

**Concentrations:** Information regarding investment concentration is presented in Note 2.

**Investment policy:** The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Retirement Board:

| Asset Class                | Pension Funds<br>Allocation % |
|----------------------------|-------------------------------|
| Cash                       | 5%                            |
| Intermediate - Term Bonds  | 30%                           |
| Broad U.S. Equities        | 39%                           |
| Developed Foreign Equities | 26%                           |
| Total                      | 100%                          |

**Connecticut state teachers' retirement system:** Teachers within the Town's school system participate in a retirement system administered by the Connecticut State Teachers' Retirement Board. This Connecticut State Teachers' Retirement System (the System) is a cost sharing multiple employer defined benefit pension system with a special funding situation.

## **Notes to Financial Statements**

## Note 6. Employee Retirement Systems (Continued)

The System is considered a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained at <a href="https://www.ct.gov">www.ct.gov</a>.

**Plan description:** Teachers, principals, superintendents, or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at <a href="https://www.ct.gov">www.ct.gov</a>.

**Summary of significant accounting policies:** For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources, and expense associated with the State's requirement to contribute to the System, information about System's fiduciary net position and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The Town has recorded, in the General Fund, intergovernmental revenue and education expenditures in the amount of \$10,470,293 as payments made by the State of Connecticut on-behalf of the Town. The Town does not have any liability for teacher pensions.

**Benefit provisions:** The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

**Normal retirement:** Retirement benefits for employees are calculated as 2 percent of the average annual salary times the years of credited service (maximum benefit is 75 percent of average annual salary during the 3 years of highest salary).

**Early retirement:** Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service with reduced benefit amounts.

**Disability retirement:** Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2 percent of average annual salary times credited service to date of disability, but not less than 15 percent of average annual salary, nor more than 50 percent of average annual salary.

**Contribution requirements:** Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended, and certified by the State Teachers Retirement Board and appropriated by the General Assembly.

Employer (School Districts): School District employers are not required to make contributions to the plan.

The statutes require the State of Connecticut to contribute 100 percent of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

## **Notes to Financial Statements**

## Note 6. Employee Retirement Systems (Continued)

For the year ended June 30, 2021, the amount of "on-behalf" contributions made by the State was \$10,570,455 and is recognized in the General Fund as intergovernmental revenues and education expenditures.

**Employees:** Effective July 1, 1992, each teacher is required to contribute 6 percent of salary for the pension benefit. Effective January 1, 2018, the required contribution increased to 7 percent of pensionable salary.

**Actuarial assumptions**: The total pension liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 Percent

Salary increases, including inflation

3.00-6.50 Percent

Long-term investment rate of return, net of pension investment expense, including inflation

6.90 Percent

Mortality rates were based on the PubT-2010 Healthy Retiree Table (adjusted 105 percent for males and 103 percent for females at ages 82 and above), projected generationally with MP-2019 for the period after service retirement.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the five-year period ending June 30, 2019.

Assumption changes since the prior year are as follows:

 There were no changes in assumptions that affected the measurement of the TPL since the prior measurement date.

Benefit changes since the prior year are as follows:

• There were no changes in benefit provisions that affected the measurement of the TPL since the prior measurement date.

**Cost-of-living allowance**: For teachers who retired prior to September 1, 1992, pension benefit adjustments are made in accordance with increases in the Consumer Price Index, with a minimum of 3 percent and a maximum of 5 percent per annum.

For teachers who were members of the Teachers' Retirement System before July 1, 2007 and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6 percent per annum. If the return on assets in the previous year was less than 8.5 percent, the maximum increase is 1.5 percent.

For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5 percent per annum. If the return on assets in the previous year was less than 11.5 percent, the maximum increase is 3 percent, and if the return on the assets in the previous year was less than 8.5 percent, the maximum increase is 1.0 percent.

## **Notes to Financial Statements**

## Note 6. Employee Retirement Systems (Continued)

Long-term rate of return: The long-term expected rate of return on pension investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The current capital market assumptions and the target asset allocation as provided by the State of Connecticut Treasurer's Office are summarized in the following table:

| Asset Class  | Expected<br>Return |                |  |
|--|--------------------|----------------|--|
| Domestic Equity Fund   | 5.6%<br>6.0%       | 20.0%<br>11.0% |  |
| Developed Market Intl. Stock Fund Emerging Market Intl. Stock Fund | 7.9%               | 9.0%           |  |
| Cored Fixed Income Fund Inflation Linked Bond Fund                 | 2.1%<br>1.1%       | 16.0%<br>5.0%  |  |
| Emerging Market Debt Fund<br>High Yield Bond Fund                  | 2.7%<br>4.0%       | 5.0%<br>6.0%   |  |
| Real Estate Fund Private Equity                                    | 4.5%<br>7.3%       | 10.0%<br>10.0% |  |
| Alternative Investments  | 2.9%               | 7.0%           |  |
| Liquidity Fund<br>Total  | 0.4%               | 1.0%<br>100%   |  |

**Discount rate:** The discount rate used to measure the total pension liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate: The Town's proportionate share of the net pension liability is \$-0- and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

Pension liabilities, pension expense, and deferred inflows/outflows of resources: At June 30, 2022, the Town reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100 percent of the required contribution. The amount recognized by the Town as its proportionate share of the net pension liability, the related state support, and the total portion of the net OPEB liability that was associated with the Town was as follows:

| Town's proportionate share of the net pension liability                  | \$<br>-           |
|--|-------------------|
| State's proportionate share of the net pension liability associated with |                   |
| the Town   | 126,238,571       |
|  |                   |
| Total  | \$<br>126,238,571 |

## **Notes to Financial Statements**

## Note 6. Employee Retirement Systems (Continued)

The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as June 30, 2020. At June 30, 2022, the Town has no proportionate share of the net pension liability.

For the year ended June 30, 2022, the Town recognized pension expense and revenue of \$8,148,993 for on-behalf amounts for the benefits provided by the State.

**Pension Plan Fiduciary Net Position:** Detailed information about the pension plan's fiduciary net position is available in the separately issued financial statements available at <a href="www.ct.gov">www.ct.gov</a>.

**Other Information:** Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

**Defined contribution retirement savings plans:** Town employees hired after the pension plan was closed to new entrants, between July 1, 2006 and June 30, 2012 depending on the union and nonunion group, are eligible to participate in a 457 defined contribution plan administered by the Town. Town contributions to the plan for the year were \$287,787 for union participants, the Plan requires the Town to contribute 6 percent. For nonunion participants, the Plan requires the Town to contribute 5 percent and 6 percent if the employee contributes at least 1 percent. Board of Education employees similarly participate in a 403(b) defined contribution plan. This plan covers all regular full-time employees except teachers covered by the Connecticut Teachers' Retirement System. For the Cheshire Educational Secretaries and Technicians United Union participants, the Plan requires the BOE to contribute 5 percent if the participant contributes 3 percent, 6.5 percent if the participant contributes 4 percent, and 8 percent if the participant contributes 5 percent. For all other BOE union and nonunion participants the Plan requires the BOE to contribute 5 percent of each participant's salary and 6 percent if the employee contributes at least 1 percent. Town contributions to the plan for the year were \$362,653.

Police officers hired on or after January 1, 2014 are required to participate in a 401(a) defined contribution plan. The Plan requires the Town to contribute 10 percent of an officer's salary. Town contributions to the plan for the year were \$128,012. Officers are also required to contribute 6 percent of their salary.

## Note 7. Other Postemployment Benefits (OPEB)

In addition to providing pension benefits, the Town instituted a policy providing for a portion of health insurance coverage or subsidized coverage to retired employees. Teachers, town employees and police may become eligible for those benefits if they retire under a normal retirement or with disability.

**Plan description:** The Town provides post-retirement benefits for certain employees for current and future health and life insurance benefit expenses through single-employer defined benefit plans. A biannual actuarial valuation is made to determine whether the contributions are sufficient to meet the plan obligations. The latest actuarial valuation was made July 1, 2021. The post-retirement plans do not issue stand-alone financial reports.

The contribution requirements of plan members and the Town are established and may be amended by the Town. The Town determines the required contribution using the Entry Age Normal Cost Method.

## **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

The valuation date July 1, 2021 reflects changes made to the plan provisions. The expected claims costs were updated based on analysis of the claims experience and premium information. Overall, per capita healthcare costs increased more than expected, which increased liabilities by about \$0.9 million. The mortality assumption was updated to use the MP-2-21 ultimate scale. The rates of retirement, termination, disability, and salary growth for Certified Board of Education employees was updated to reflect the assumption that were used in the June 30, 2020 valuation of the Connecticut State Teachers' Retirement System. The discount rate was decreased from 3.50 percent to 2.16 percent to align with the 20 Year Tax-Exempt Municipal bond yield as of June 30, 2021. These assumption changes in combination increased the Unfunded Accrued Liability by about \$4.6 million.

Membership in the plans consisted of the following at July 1, 2021.

| Category                                      | Town | Police |
|---|------|--------|
|   |      |        |
| Retirees and beneficiaries receiving benefits | 93   | 43     |
| Active plan members                           | 605  | 42     |
| Total   | 698  | 85     |

**Rate of return:** For the year ended June 30, 2022, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expense, was as follows. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

|        | Town    | Police  |
|--------|---------|---------|
|        |         |         |
| return | -12.07% | -10.70% |

**Net OPEB liability of the Town:** The components of the net OPEB liability of the Town at June 30, 2022 were as follows:

| Net OPEB Liability                 |                  |                 |  |
|------------------------------------|------------------|-----------------|--|

| •                                  |                  |                 |  |

# **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

**Actuarial assumptions:** The total OPEB liability was determined by an actuarial valuation as of July 1, 2021, calculated based on the discount rate and the actuarial assumptions below, and then was projected forward to the measurement date June 30, 2022. There have been no significant changes between the valuation date and the fiscal year-end. The information presented was determined as part of the actuarial valuations. Information as of the July 1, 2021 valuation follows:

| Town                                |                       | Police                               |

# **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

Assumed rate of return: The long-term expected rate of return on OPEB plan investments was determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Best estimates of the real rates of returns for each major asset class are included in the OPEB plan's target asset allocation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of July 1, 2022 and the final investment return assumption, are summarized in the following table:

|  | Long-Term<br>Expected<br>Arithmetic | Long-Term<br>Expected<br>Geometric |
|--|-------------------------------------|------------------------------------|
| Asset Class - Town                     | Real Return                         | Real Return                        |
| Cash                                   | -0.32%                              | -0.32%                             |

| Long-Term Expected Rate of Return      |                                     | 3.50%                              |

## **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

### Investments:

Concentrations: Information regarding investment concentration is presented in Note 2.

**Investment policy:** The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Retirement Board:

| Asset Class                | OPEB Funds<br>Allocation % |
|----------------------------|----------------------------|
| Cash                       | 5%                         |
| Intermediate - Term Bonds  | 30%                        |
| Broad U.S. Equities        | 39%                        |
| Developed Foreign Equities | 26%                        |
| Total                      | 100%                       |

**Discount rate:** The plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments, to the extent that the plan's fiduciary net position is not projected to be sufficient.

|  | Town  | Police |  |
|--|-------|--------|--|
|  |       |        |  |
| Discount rate  | 3.54% | 3.54%  |  |
| Long-term expected rate of return, net of investment expense | 3.50% | 3.50%  |  |
| 20 Year Tax-Exempt Municipal Bond Yield                      | 3.54% | 3.54%  |  |

## Other Postemployment Benefit - Connecticut State Teachers' Retirement Plan

**Plan description:** Teachers, principals, superintendents, or supervisors engaged in service of public schools plus professional employees at State Schools of higher education are eligible to participate in the Connecticut State Teachers' Retirement System Retiree Health Insurance Plan (TRS-RHIP), a cost sharing multiple-employer defined benefit other postemployment benefit plan administered by the Teachers' Retirement Board (TRB), if they choose to be covered.

Chapter 167a Section 10-183 (t) of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS-RHIP issues a publicly available financial report that can be obtained at <a href="https://www.ct.gov/trb">www.ct.gov/trb</a>.

**Benefit provisions:** There are two types of the healthcare benefits offered through the system. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the CTRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare, but not receiving Subsidized Local School District Coverage.

## **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

Any member that is not currently participating in Medicare Parts A & B is eligible to continue healthcare coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, any remaining portion is used to offset the district's cost. The subsidy amount is set by statute, and has not increased since July of 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse, or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost, and contributes at least \$220 per month towards coverage under a local school district plan.

Any member that is currently participating in Medicare Parts A & B is eligible to either continue healthcare coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplemental Plans. Effective July1, 2018, the System added a Medicare Advantage Plan option. Active members, retirees, and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits) under the Medicare Advantage Plan. Retired members who choose to enroll in the Medicare Supplement Plan are responsible for the full difference in the premium cost between the two plans. Additionally, effective July 1, 2018, retired members who cancel their health care coverage or elect to not enroll in a CTRB sponsored health care coverage option must wait two years to re-enroll.

**Survivor healthcare coverage:** Survivors of former employees or retirees remain eligible to participate in the Plan and continue to be eligible to receive either the \$110 monthly subsidy or participate in the TRB Sponsored Medicare Supplemental Plans, as long as they do not remarry.

**Eligibility:** Any member that is currently receiving a retirement or disability benefit is eligible to participate in the Plan.

**Credited service:** One month for each month of service as a teacher in Connecticut public schools, maximum 10 months for each school year. Ten months of credited service constitutes one year of Credited Service. Certain other types of teaching services, State employment, or wartime military service may be purchased prior to retirement, if the member pays one-half the cost.

**Normal retirement:** Age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut.

**Early retirement:** Age 55 with 20 years of Credited Service including 15 years of Connecticut service, or 25 years of Credited Service including 20 years of Connecticut service.

**Proratable retirement:** Age 60 with 10 years of Credited Service.

**Disability retirement:** No service requirement if incurred in the performance of duty, and 5 years of Credited Service in Connecticut if not incurred in the performance of duty.

**Termination of employment:** 10 or more years of Credited Service.

## **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

### **Contributions**

## State of Connecticut

Per Connecticut General Statutes Section 10-183t, contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly. The State appropriates from the General Fund one third of the annual costs of the Plan. Administrative costs of the Plan are financed by the State. Based upon Chapter 167a, Subsection D of Section 10-183t of the Connecticut statutes, it is assumed the State will pay for any long-term shortfall arising from insufficient active member contributions.

## Employer (School Districts)

School District employers are not required to make contributions to the plan.

For the year ended June 30, 2022, the amount of "on-behalf" contributions made by the State was \$248,743 and is recognized in the General Fund as intergovernmental revenues and education expenditures.

## Employees/Retirees

The cost of providing plan benefits is financed on a pay-as-you-go basis as follows: active teachers' pay for one-third of the Plan costs through a contribution of 1.25 percent of their pensionable salaries, and retired teachers pay for one-third of the Plan costs through monthly premiums, which helps reduce the cost of health insurance for eligible retired members and dependents.

**OPEB liabilities, OPEB expense, and deferred outflows of resources and deferred inflows of resources related to OPEB:** At June 30, 2022, the Town reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100 percent of the required contribution. The amount recognized by the Town as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the Town was as follows:

| Town's proportionate share of the net OPEB liability                           | \$<br>-          |
|--|------------------|
| State's proportionate share of the net OPEB liability associated with the Town | 13,753,461       |
| Total  | \$<br>13,753,461 |

The net OPEB liability was measured as of June 30, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as June 30, 2021. At June 30, 2022, the Town has no proportionate share of the net OPEB liability.

For the year ended June 30, 2022, the Town recognized OPEB expense and revenue of \$(507,872) for on-behalf amounts for the benefits provided by the State.

## **Notes to Financial Statements**

#### Note 7. Other Postemployment Benefits (OPEB) (Continued)

Actuarial assumptions: The total OPEB liability was determined by an actuarial valuation as of June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

2.50 percent Inflation

Healthcare costs trend rates 5.125 percent for 2020, decreasing to

4.50 percent by 2023

Salary increases 3.00-6.50 percent, including inflation

Investment rate of return 2.17 percent, net of OPEB plan

investment expense, including

inflation

Year net position will be depleted 2023

Mortality rates were based on the PubT-2010 Healthy Retiree Table (adjusted 105 percent for males and 103 percent for females at ages 82 and above), projected generationally with MP-2019 for the period after service retirement.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 - June 30, 2019.

The valuation date July 1, 2021 reflects changes made to the plan provisions. The discount rate used to measure Plan obligations decreased from 2.21 percent to 2.17 percent. Expected annual per capita claims were updated to better reflect anticipated Medicare and prescription drug claim experience based on scheduled premium increases through calendar year 2024.

The long-term expected rate of return on plan assets is reviewed as part of the GASB 75 valuation process. Several factors are considered in evaluating the long-term rate of return assumption, including the Plan's current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net investment expense and inflation) for each major asset class. The long-term expected rate of return was determined by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The plan is 100 percent invested in U.S. Treasuries (Cash Equivalents) for which the expected 10-Year Geometric Real Rate of Return is (0.42 percent).

## **Notes to Financial Statements**

## Note 7. Other Postemployment Benefits (OPEB) (Continued)

**Discount rate:** The discount rate used to measure the total OPEB liability was 2.17 percent. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 75. The projection was based on an actuarial valuation performed as of June 30, 2020.

In addition to the actuarial methods and assumptions of the June 30, 2020, actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- Total payroll for the initial projection year consists of the payroll of the active membership present on the valuation date. In subsequent projection years, total payroll was assumed to increase annually at a rate of 3.00 percent.
- Employee contributions were assumed to be made at the current member contribution rate.
   Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Annual State contributions were assumed to be equal to the most recent five-year average of state contributions toward the fund.

Based on those assumptions, the Plan's fiduciary net position was projected to be depleted in 2023 and, as a result, the Municipal Bond Index Rate was used in the determination of the single equivalent rate.

Sensitivity of the net OPEB liability to changes in the health care cost trend rate and the discount rate: The Town's proportionate share of the net OPEB liability is \$-0- and, therefore, the change in the healthcare cost trend rate or the discount rate would only impact the amount recorded by the State of Connecticut.

**OPEB Plan Fiduciary Net Position:** Detailed information about the Connecticut State Teachers OPEB Plan fiduciary net position is available in the separately issued State of Connecticut Comprehensive Annual Financial Report at www.ct.gov.

**Other information:** Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

# **Notes to Financial Statements**

# Note 8. Fund Balances (Deficits)

The detail of the Town's fund balances are as follows:

| Fund balances:                         |    | General<br>Fund | lm | Capital<br>provements<br>Fund |    | Debt<br>Reserve<br>Fund |    | Nonmajor<br>overnmental<br>Funds | Total<br>Governmental<br>Funds |            |

| Total fund balance                     | \$ | 17,505,318      | \$ | 2,771,808                     | \$ | 3,243,126               | \$ | 7,245,600                        | \$                             | 30,765,852 |

Encumbrances included in the above table in the assigned categories are as follows: \$2,373,145 in the General Fund.

## **Notes to Financial Statements**

## Note 9. Fund Deficits

The following fund had a fund deficit as of June 30, 2022:

Internal Service Fund:

Heart & Hypertension \$ 2,691,667

The Internal Service fund deficit will be repaid with future charges.

## Note 10. Contingencies and Commitments

Construction and other significant commitments have been reported as assigned fund balance in the fund equity section of the balance sheet. At year-end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

| General Fund                | \$<br>2,381,729 |
|-----------------------------|-----------------|
| Capital Improvements Fund   | 2,294,370       |
| Nonmajor governmental funds | 288,739         |
| Total                       | \$<br>4,964,838 |

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

The Town is currently a defendant in a number of lawsuits. It is the opinion of Town officials that such pending litigation will not result individually or in the aggregate in a final judgment against the Town which would have a material adverse effect on its financial position.

**Construction commitments:** The Town has active construction projects as of June 30, 2022. At year-end, the Town's commitment on uncompleted contracts is approximately \$2,488,000.

## Note 11. Risk Management

The Town is exposed to various risks of loss relating to public official liability, police liability, Board of Education legal liability, theft or impairment of assets, errors and omissions, injury to employees, employee health, and natural disasters. The Town purchases commercial insurance for all risks of loss, including blanket and umbrella policies, except for self-insured medical benefits provided under its three health insurance plans, prescription drug plan, and dental plans. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage from coverage in the prior year.

The Town established an internal service fund, the health insurance fund, to account for and finance employee medical benefits claims for eligible employees of both the Town and Board of Education. The Town retains the risk of loss under the three medical plans it offers, along with dental and prescription drugs.

## **Notes to Financial Statements**

## Note 11. Risk Management (Continued)

A third party processes the claims filed under the Town's self-insured health plans, for which the Town is charged an administrative fee. The Town participates in a stop-loss captive for individuals exceeding \$175,000. The captive purchases reinsurance for claims exceeding \$175,000. Incurred but not recorded (IBNR) are accrued for in the Health Insurance Fund.

The Town established an internal service fund, Heart and Hypertension, to account for the financing of heart and hypertension claims.

Payments to the Health Insurance internal service fund are based upon estimates for the number of employees and type of coverage (single or family) and trends in the insurance claims and estimates for administration. For the Heart and Hypertension fund, payments to the fund are based upon estimates of claim reserves necessary to pay annual commitments as well as future claims. The claims liability for the Health Insurance Fund and Heart and Hypertension Fund, respectively, reported in the fund at June 30, 2022, is based upon the provisions of GASB Statements No. 10 and 30, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the possible loss can be reasonably estimated.

The amount of the claims accrual is based on the estimated ultimate costs of settling the claims, which includes past experience data, inflation, and other future economic and societal factors and incremental claims adjustment expenses, net of estimated subrogation recoveries. Liabilities for unpaid claims are based on recommendations from third-party administrators. The claims accrual does not include other allocated or unallocated claims adjustment expenses. Such amounts are included as a component of liabilities in the statement of financial position (Exhibit I) as accounts payable for health insurance claims payable and current and noncurrent portions of long-term debt obligations for heart and hypertension claims payable.

## **Notes to Financial Statements**

## Note 12. Project Authorizations

The following is a summary of Capital Improvement Fund projects at June 30, 2022:

|                              | Authorization | Cumulative<br>Expenditures | Unspent<br>Authorizations |
|------------------------------|---------------|----------------------------|---------------------------|
| Various capital improvements | \$ 90,304,022 | \$ 64,045,909              | \$ 20,919,326             |

## Note 13. Tax Abatements

The Town of Cheshire enters into property tax abatement agreements under Connecticut General Statute (CGS) Section 12-65b with local businesses that apply. Under the Statute, municipalities may grant property tax abatements for real estate for the purpose of attracting or retaining businesses within their jurisdictions. The abatements may be granted to any business located within or seeking to relocate to Cheshire. Cheshire's current policy is to abate taxes based on 50 percent of the assessed value of new construction for a 4-year period for projects with improvements less than three million and a 7-year period for projects that are three million or more. The Town can recapture abated taxes if the business does not stay in Cheshire for at least 10 years. There is also a penalty if an agreed upon minimum staffing level is not maintained for the 4- or 7-year abatement period. For the year ended June 30, 2022, property taxes in the amount of \$80,759 were abated under this program.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the Town will present information for those years for which information is available.

Notes to Schedule

Changes in benefit terms None

Changes of assumptions Based on the procedure described in GASB 75, the discount rate used to measure plan obligations for financial

accounting purposes as of June 30, 2021 was updated to equal the Municipal Bond Index Rate as of June 30, 2021;

Expected annual per capita claims costs were updated to better reflect anticipated medical and prescription drug

claim experience based on scheduled premium increases through calendar year 2024

Actuarial cost method Entry age

Amortization method Level percent of payroll over an open period

Remaining amortization period 30 years

Asset valuation method Market value of assets

Investment rate of return 3.00%, net of investment related expense including price inflation

Price inflation 2.75

## Note to Required Supplementary Information - unaudited

## Note 1. Budgets and Budgetary Accounting

The Town's budget policies for the General Fund, the Water Pollution Control Fund, and the Cheshire Community Pool Fund are as follows:

- A. Each department, office, board, or commission of the Town, including the Board of Education, shall submit to the Town Manager a detailed estimate of the expenditures and anticipated revenues by February 15.
- B. On or before March 10, the Town Manager submits a balanced budget and budget message to the Town Council based upon requests submitted by the various Town departments.
- C. By March 24, the Town Council submits the proposed operating budget to one or more public hearings, at which elector or taxpayer comments are obtained. A second public hearing is held prior to adoption. The budget includes proposed expenditures and the means of financing them. By April 30, the Town council must adopt an operating budget and fix a tax rate in mills and shall file it with the Town Clerk by May 10.
- D. The budget adopted by the Town Council is subject to one referendum by petition of at least 10 percent of the registered electors. The petition must be filed by May 20, and the Council must hold a referendum no later than June 20. If the budget is rejected at referendum, the Council has until June 27 to adopt a new budget and file it with the Town Clerk.
- E. The legal level of control for the General Fund, the level at which expenditures may not exceed appropriations, is at the department level within a function that includes departments, offices, projects, sub-functions, boards and commissions as prescribed by the Town Charter. The legal level of control is at the fund level for the Water Pollution Control Fund and the Cheshire Community Pool Fund.
- F. Management is not authorized to make budgetary transfers. The Town Council, in accordance with the provisions of the Charter and the Connecticut General Statutes, is authorized to transfer unexpended balances from one appropriation to another. Additional appropriations up to \$250,000 may be approved by the Town Council. Additional appropriations that exceed \$250,000 but do not exceed \$500,000 may be approved by the Council following a public hearing. Those in excess of \$500,000 may be approved for referendum by the Council following a public hearing. Additional appropriations funded with federal American Rescue Plan Act (ARPA) grants were approved for the General Fund during the year totaling \$1,825,000, including \$1,500,000 for the Department of Education to help fund an increase in medical claims and \$325,000 for a bulky waste pick up at Town residences. There was also an additional appropriation from the Water Pollution Control Department fund balance for additional overtime from staffing vacancies and the processing of accumulated solids as well as for equipment/program supplies and equipment maintenance that helped remedy deferred maintenance.
- G. The Department of Education is not a separate legal entity, but a separate function of the Town. Its Board is authorized under state law to make any transfers required within their budget at their discretion. Any additional appropriations must have Town Council approval and, if necessary, approval at a public hearing or referendum.
- H. Formal budgetary integration is employed as a management control device during the year.

## Note 1. Budgets and Budgetary Accounting (Continued)

I. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order, contract or other commitment is issued and, accordingly, encumbrances outstanding at year-end are reported in budgetary reports as expenditures in the current year. Generally, all unencumbered appropriations lapse at year-end, except those for the capital projects funds. Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year.

A reconciliation of General Fund revenues, expenditures, and net other financing sources/uses, as presented in accordance with GAAP and as presented on the budgetary basis, is as follows:

|   |                        |                             |    | Net Other                  | Fund                          |

Combining and Individual Fund Financial Statements and Other Schedules

# **General Fund**

The general fund is the principal fund of the Town and is used to account for all activities of the Town, except those required to be accounted for in another fund. The general fund accounts for the normal recurring activities of the Town (i.e., general government, public safety, public works, health, social services, recreation, education, etc.). These activities are funded principally by property taxes, user fees and grants from other governmental units. The following funds have been reclassified to the General Fund, which were previously reported as Special Revenue Funds, but they no longer meet the definition in accordance with GASB 54:

## **Insurance Proceeds Fund**

To account for receipts from insurance companies and disbursements for insurance claims.

## **Cheshire Community Pool Fund**

To account for the collection of user charges to support the cost of operating the Cheshire community pool.

## Nonmajor Governmental Funds

### Special Revenue Funds

Special revenue funds are used to account for and report specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

#### **Special Grants Fund**

To account for expenditures of grants not otherwise accounted for in another fund.

#### **School Cafeteria Fund**

To account for the operation of the public school lunch program. Funding is provided from the sale of food, Federal and State grants, and USDA food donations.

#### **Sewer and Water Assessment Fund**

To account for the financing of sanitary sewer and water improvements deemed to benefit owner properties.

#### **Senior Citizens Minibus Fund**

To account for rider fare collections from the operation of the senior minibus. Periodic expenditures for new minibuses are charged to this fund.

#### **Water Pollution Control Fund**

To account for the collection of user charges to support the cost of operating the Town's sewer operations.

#### **Educational Programs Fund**

To account for State and Federal education grant activities and Cheshire Adult Education, Summer School, and other programs.

#### **Emergency Fuel Bank Fund**

To account for fuel expenditures for needy families.

#### **General Town Funds**

To account for gifts or donations to the Town for specific purposes.

#### **Annie Peck Fund**

Established in 1978 to provide for the improvement and betterment of the Cheshire Public Schools.

#### Julia Tompkins Fund

Established in January 1896 to purchase library books.

#### **Student Activities Fund**

To account for monies from various self-funding school activity programs.

#### **CRRA Fund**

To account for funds distributed from the Connecticut Resource Recovery Authority, a five-town, trash-toenergy plant consortium, set aside for future expense.

### Capital Projects Fund

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

#### **Capital & Nonrecurring Expenditures Fund**

To account for funds set aside for future capital improvements.

#### **Turf Fund**

To account for funding the future replacement of the existing synthetic turf field at Cheshire High School.

#### Permanent Funds

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

#### Parks and Recreation Fund

Established in January 1987 to support Parks and Recreation Department activities.

#### James A. Darcey Memorial Fund

Established in October 1966 to provide a scholarship for mathematics students at Darcey School.

#### **Various Endowment Funds**

Established to account for various library and other endowments.

Combining Balance Sheet Nonmajor Governmental Funds June 30, 2022

### Internal Service Funds

Internal service funds are used to account for the financing of goods and services provided by one department or agency of the Town to other departments or agencies of the Town on a cost reimbursement basis.

#### **Health Insurance Fund**

This fund is used to account for self-insured medical benefits provided for the Town's employees.

### **Heart & Hypertension Fund**

This fund is used to account for the self-insured funding for heart and hypertension claims.

#### Statistical Section

This part of the Town of Cheshire, Connecticut's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

#### **Contents**

#### Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

#### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

**Note:** Details regarding the Town's outstanding debt, including general obligation bonds and notes, may be found in the notes to the basic financial statements.

<sup>(1)</sup> This is the general bonded debt of governmental activities, net of original issuance discounts and premiums.

<sup>(2)</sup> This is the amount restricted for debt service principal payments.

<sup>(3)</sup> See the Schedule of Assessed Value and Estimated Actual Value of Taxable Property for property value data.

<sup>(4)</sup> Population data can be found in the Schedule of Demographic and Economic Statistics.

# Direct Governmental Activities Debt For the Year Ended June 30, 2022 (Unaudited)

| Governmental Unit       | Debt<br>Outstanding |
|-------------------------|---------------------|
| General obligation debt | \$ 96,839,038       |
| Lease Payable           | 145,902             |
| Total direct debt       | \$ 96,984,940       |

Sources: Town Records

**Note:** The Town is not subject to the debt of overlapping governments.

**Note:** School construction grants are receivable in substantially equal installments over the life of

outstanding school bonds, obtained from Office of Policy and Management, State of Connecticut.
