Storm Isaias has caused significant damage in Cheshire and throughout the state. The Town of Cheshire is working closely with Eversource, although power is not expected to be restored for several days. Residents are encouraged to report outages to Eversource, even though it may be a duplicate report, by calling 800-286-2000, texting 'OUT' to 23129, or reporting online at http://Eversource.com.

Police, Fire, and Public Works personnel are all working to get roads passable and safe. Downed wires and trees on wires are prevalent throughout town. Motorists are urged to treat all downed wires as live.

The Town will be opening a “charging station” at Highland School. Residents can come for a limited amount of time to charge cell phones and laptops, and access WiFi. Capacity will be limited, face coverings are required, and temperature checks will be taken at the door when participants sign in. This charging station will be open today from 4:00 p.m. to 7:30 p.m., and Thursday and Friday from 7:30 a.m. to 7:30 p.m. if the power outage is still widespread.

Town Hall offices are operating, although the Library, the Community Pool, and other smaller Town facilities and services will be closed until power is restored.

The Town will be opening areas for brush and debris drop-off once roads and public facilities have been cleared and debris have been disposed. Details will be announced soon.
